We at the University of Delaware are conducting a study for the Delaware Division of Public Health and the federal Centers for Disease Control and Prevention. We want to find out what students think about, know about, and do about cigarettes and other tobacco products. To learn these things, we are asking 6th to 12th graders in all Delaware public schools these questions. We are doing this to find out what kinds of information and programs students need most and what kinds they don’t need. THIS IS NOT A TEST. This is research, so there are no right or wrong answers. It is very important that you answer each question truthfully. The best answer you can give us is the one that is true for you.

DO NOT PUT YOUR NAME ON THIS BOOKLET. We want to be sure that everyone’s answers are private and anonymous. When you are done, turn your booklet over and raise your hand; I will come around with an envelope for you to put your survey in. Then you can work quietly at your desk on something else until everyone has finished. Your teacher and your classmates will not know your answers. The answers will be important when we combine them with all the other students’ answers so we will know what all students in Delaware are thinking and doing about topics we ask about in the questions. We keep your responses private and anonymous because if the study is to be helpful, it is important that you answer each question truthfully.

You don’t have to answer any questions you don’t want to. Anything you don’t want to answer, just leave blank. There is no penalty if you choose not to fill out the survey or any part of it.

Unless the question says otherwise, mark only one answer for each question.

REMEMBER, this isn’t a test, so there are no right or wrong answers. We need TRUE ANSWERS. Work quickly so you can finish. If you don’t find an answer that fits exactly, choose the one that comes closest. If it’s something you just don’t understand, raise your hand for help. If it’s something you don’t know, leave it blank and go on to the next question.

Thank you very much for your help and for being an important part of this study.
