Department of Energy

FY 2023 Phase I, Release 1: Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) | LOI: August 29, 2022 / Full: October 11, 2022

OVERVIEW: The objectives of the SBIR/STTR programs include increasing private sector commercialization of technology developed through DOE-supported research and development (R&D), stimulating technological innovation in the private sector, encouraging participation by women-owned and minority-owned small businesses, and improving the return on investment from Federally funded research for economic and social benefits to the nation. DOE will support high-quality research or R&D on innovative concepts concerning important mission-related scientific or engineering problems and opportunities that have high potential for commercialization. The following DOE program offices are participating in this Funding Opportunity Announcement: Advanced Scientific Computing Research, Basic Energy Sciences, Biological and Environmental Research, Nuclear Physics.

Estimated Number of Awards: 196

Anticipated Funding Amount: Approximately \$40,000,000 is expected to be available for new awards under this FOA, with a ceiling (i.e., the maximum amount for an individual award) between \$200,000 and \$250,000

Additional Information: [DE-FOA-0002783](#)

Webinar: Friday, August 12 at 2:00 PM EST. Register [here](#).

The DOE SBIR/STTR Programs Office will provide a 45-minute overview of the DOE SBIR/STTR technology areas and the application and award process as it relates to the FY23 Phase I Release 1 FOA. There will be time for Q&A. Don't forget to submit your questions at the time of registration.
