

A vibrant, colorful illustration for a BrainyAct advertisement. The background is a bright yellow with radiating lines. In the center, a person in an orange shirt and dark pants stands on a large smartphone displaying a game interface with various icons. To the left, a hand holds a colorful xylophone. To the right, there are geometric shapes like a pyramid, a sphere, and a cone, along with a stack of playing cards and a yellow smiley-face block. The word 'PLAY' is written in large, bold, white letters with a yellow outline. Below it, the text 'AND EARN UP TO \$360' is written in white. At the bottom, a purple banner contains the text 'Looking for children with Autism from 5-15 years to play the BrainyAct videogame!' in yellow. In the top right corner, the 'BrainyAct' logo is displayed in a pixelated font. A purple circle in the top left contains the text 'CLICK TO SEE IF YOUR CHILD IS ELIGIBLE!' in white.

**BRAINYACT INTERVENTION STUDY** (PI: Anjana Bhat, PT, PhD): Children between 5 and 15 years of age with Autism are invited to participate in this study. The study examines the effects of 8 weeks of BrainyAct videogaming on perceptuo-motor and cognitive skills of children and involves up to 24 sessions for ~1 hour each. Testing will occur at UD and training will be provided at the DFit community center in New Castle or Pike Creek, DE. Participating families may receive \$360 approx. in gift card (@\$10 per session completed) including some travel costs. You can help by volunteering for our study. If interested, please call us at (443) 523-8680 or email to [abhat@udel.edu](mailto:abhat@udel.edu).
