Space Capsule Evacuation Study

Seeking **transtibial amputee** volunteers (age 18-65, BMI equal or below 30, capable of walking continuously for 15 minutes without assistance) to participate in a study evaluating the feasibility of amputee astronauts.

Participants will participate in two visits where they will simulate emergency evacuation of a space capsule and landing site debris navigation. Participants will be compensated $20 per visit.

Sessions will take place at the University of Delaware (Newark, DE): *Health Sciences Complex (UD STAR Campus), Room 124*
