

# Research Study at the University of Delaware

We are looking for participants aged 14-80 for a research study at UD's Center for Brain and Biomedical Imaging

This study will be looking at how the brain moves in the skull and consists of a MRI and simple memory tests. If interested, please contact Alexis Merritt at [amerritt@udel.edu](mailto:amerritt@udel.edu) or call (302) 831-3883

Your participation in this study will last 3 hours and you will be compensated \$50.
