

Do you have aphasia after stroke? We need your help.

Purpose of research study: To test a new scale AND explore coping with stress and general well-being in people with aphasia

To be included in this study, you must meet the following criteria:

- Experienced stroke at least 6 months ago
- Have a diagnosis of aphasia
- Speak English as a primary language
- Be at least 21 years old
- Have at least a high school education

Time commitment: In-person: One session, 1.5 - 2 hours
or
If virtually: 2-3 sessions, each 30-45 minutes

Research activities: Complete a brief language test and several questionnaires about coping, stress, and well-being

Location of research study: At UD STAR Campus, in your home, or virtually via Zoom

Potential benefits: This research will help us create a measure of resilience for people with aphasia.
