Courses in our Intensive English Program (IEP) help students prepare for undergraduate or graduate studies at an American university, business professionals learn English for career enhancement and general language learners improve their language skills.

Levels of instruction

On your first day, you will take an entrance assessment to help us determine your English level. You should complete one level per two-month session.

ACADEMIC TRANSITIONS

Conditional admissions for undergraduate students

Academic Transitions (AT) is UD's pathway program for conditionally-admitted undergraduate students. Improve your academic English before starting full-time US university studies. With small class sizes, and support designed for English learners, AT is a great way to begin your journey as a Blue Hen! Students can study all majors via AT.

Features of AT

Courses related to the student's major

AT students follow a special track of study with courses and credits that count toward their bachelor's degree. You can **earn up to 28 credits** while studying at the ELI—almost the equivalent of the first year of university—which helps you **finish in 4 years!**

Classes for English learners

University courses taken in AT provide the same content as typical University courses, but have been designed for students whose first language is not English. This helps students to better understand the course content.

Academic skill development

AT students develop study skills, build academic vocabulary, and learn about the expectations of American professors. Most AT students (90%) matriculate after two semesters, and **earn a higher GPA** than international students who did not complete AT.

Resources for student success

Whether studying online or on campus, AT students have many resources to help them be successful: University student and faculty mentors, academic advisors, private tutoring and more.

Excellent value

AT students pay a similar price to what other international students pay for one year of full-time university study; however, AT students receive added value in the support that was specially designed for non-native English speakers.

Online option

Students can begin their AT experience taking **small, online classes**. Classes are mostly live, with students and instructors interacting “face-to-face,” virtually. Breakout rooms provide space for small group work.

Genuine university experience

The full college experience happens outside of the classroom. AT students join student clubs, participate in campus life, and share their culture with others! Virtual student life events are held several times a week, allowing online students to join in the fun!

Convenient start dates

The AT calendar uses 4-month semesters. There are 3 start dates for AT each year.

www.udel.edu/eli/at

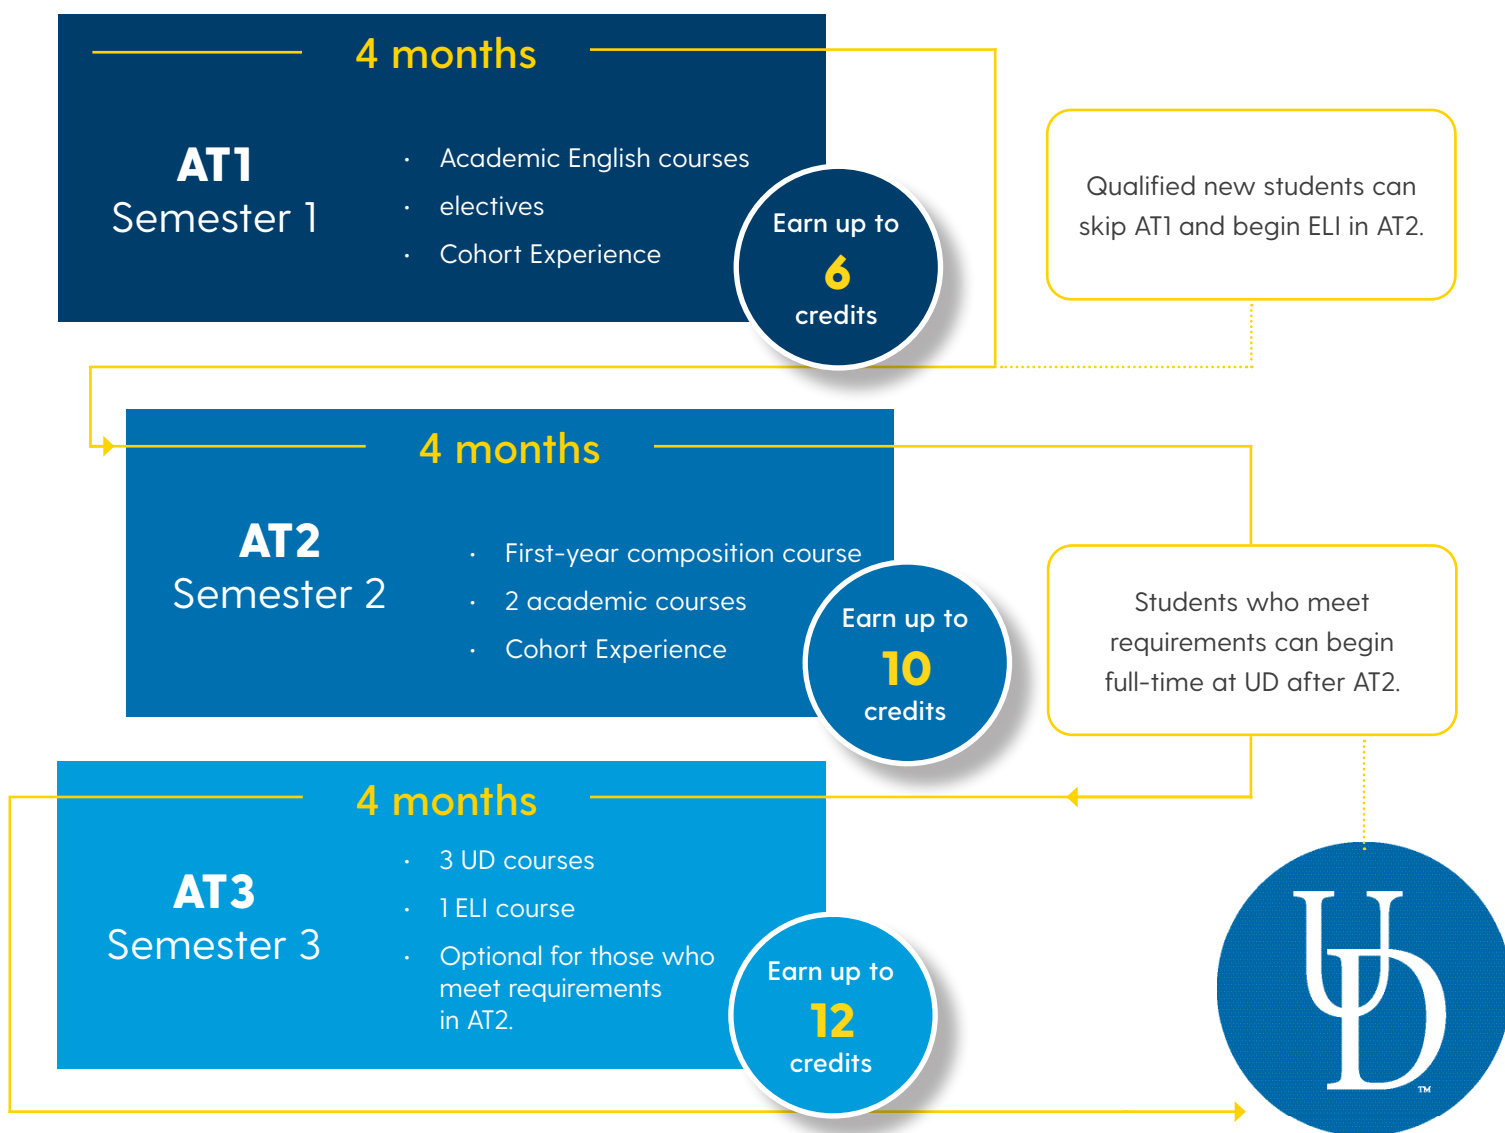

How does AT work?

There are two paths that determine how many university credits you can earn in AT, and how much time you will spend in the program:

- **AT1 + AT2:** earn up to 16 credits in 8 months.
- **Plus AT3 option:** earn up to 28 credits in 12 months.

All students are automatically enrolled in the AT1 + AT2 plan, with the expectation that they will complete the program in 8 months. In the Plus AT3 option, you continue studying in AT3 for an additional 4 months after completing AT2. AT3 is a chance to earn more credits at a discounted rate.

AT Calendar

There are 3 semesters of AT offered each year, and you can start your studies at the ELI at the beginning of any of these terms.

Each semester lasts approximately 4 months.

The rooms are comfortable, furnished and air-conditioned. By living on campus, you can experience college living just like an American student. Staff is available to help with problems and arrange cultural programming.

3. APARTMENT - Live off-campus in an apartment in Newark. Some students may choose to live in the Global Community at The Waverly. Most apartments are within biking distance of campus and the ELI, or you can take the University's free shuttle bus to travel between campus and your apartment.

4. INNternationale - The INNternationale is a residential and conference facility for international students, visiting professors and UD students interested in international living. ELI students who live in the INNternationale normally are mature professionals who are studying at the ELI for a short period of time.
