

How to Disable Popup Blockers

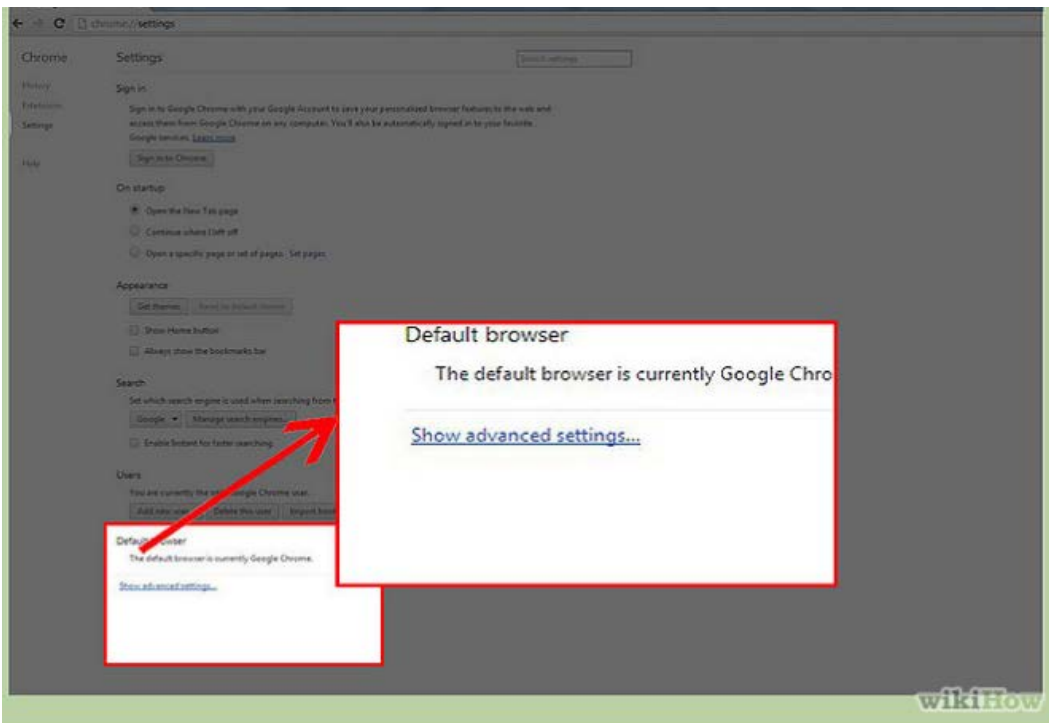

Google Chrome

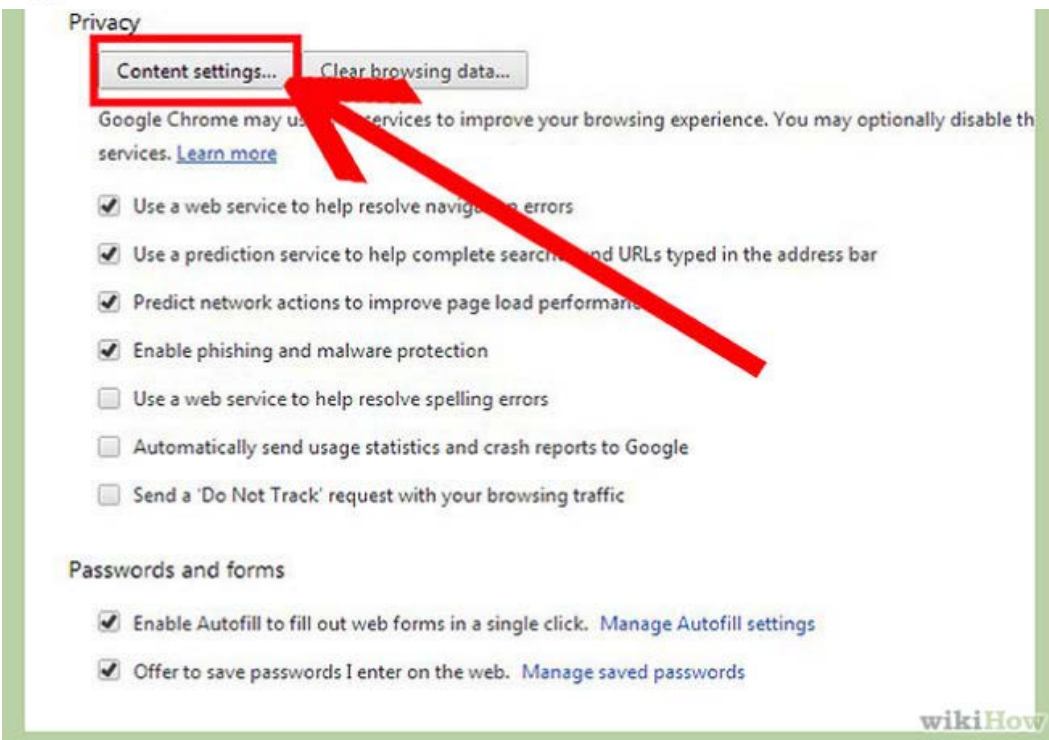

- 1 Access the Google Chrome menu on the toolbar. The menu on the toolbar is at the top right of your browser.

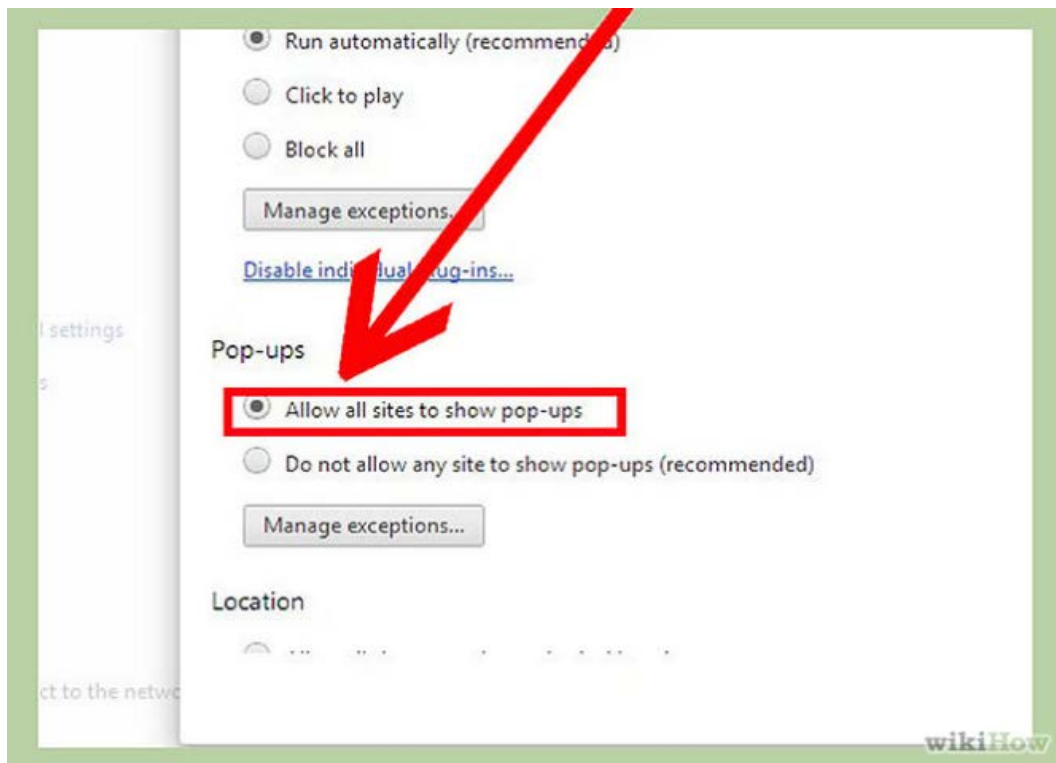

- 2 Choose "Settings."

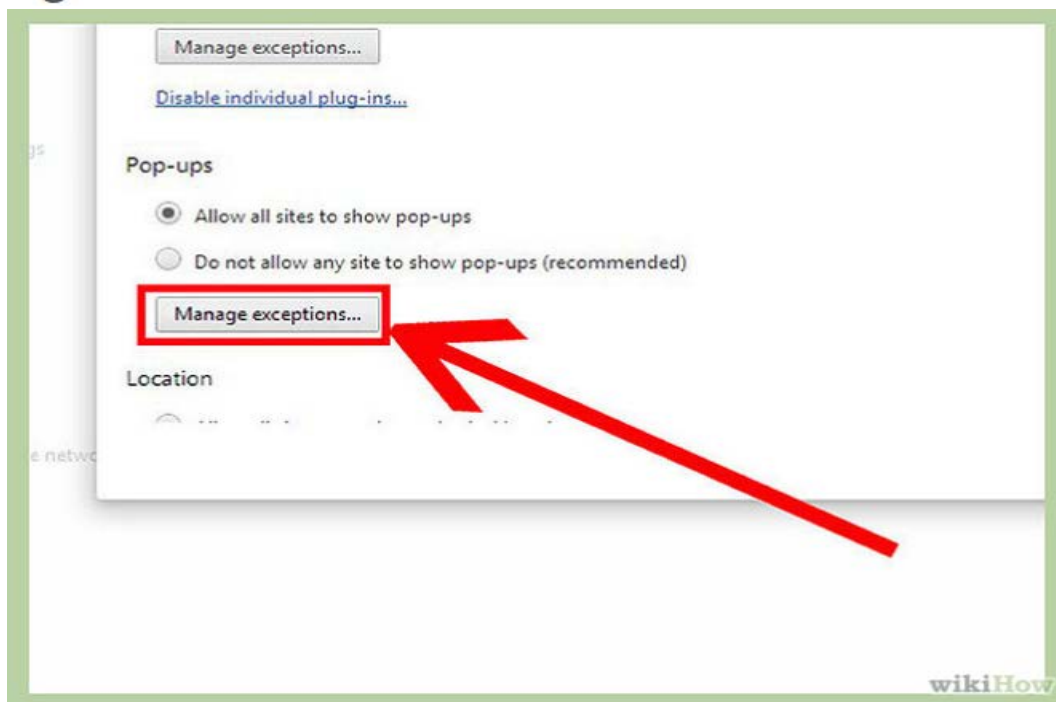

3 Find "Show advanced settings" at the bottom of the page and click it.

4 Under "Privacy," click on "Content settings."

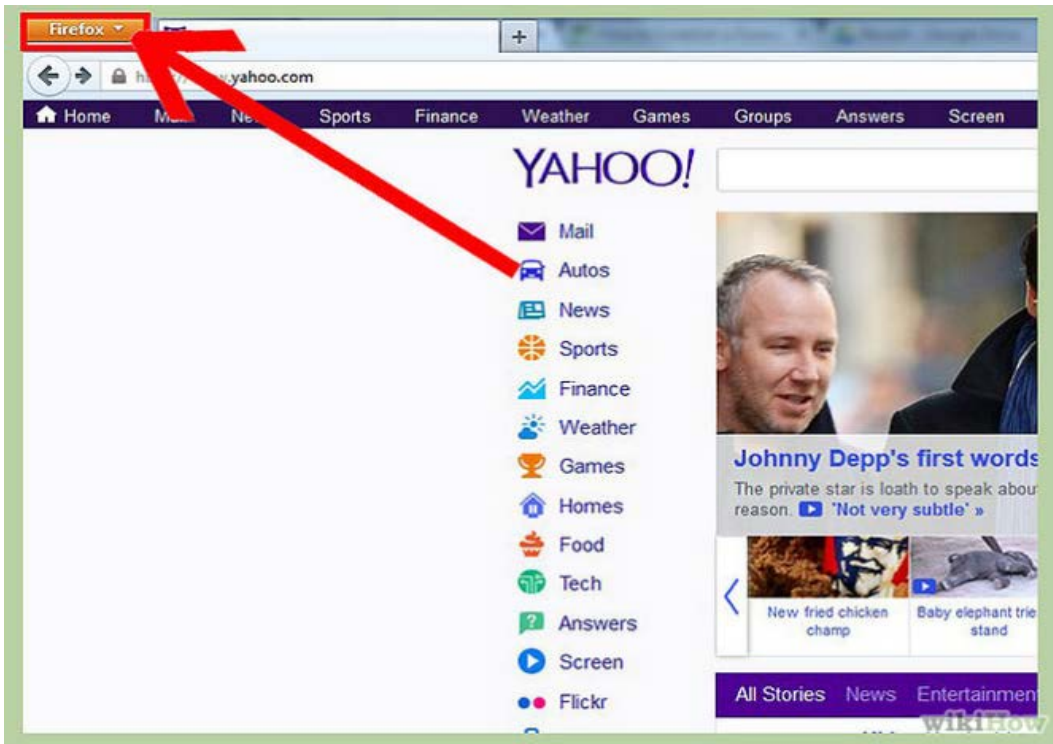

5 In the "Pop-ups" section, choose "Allow all sites to show pop-ups."

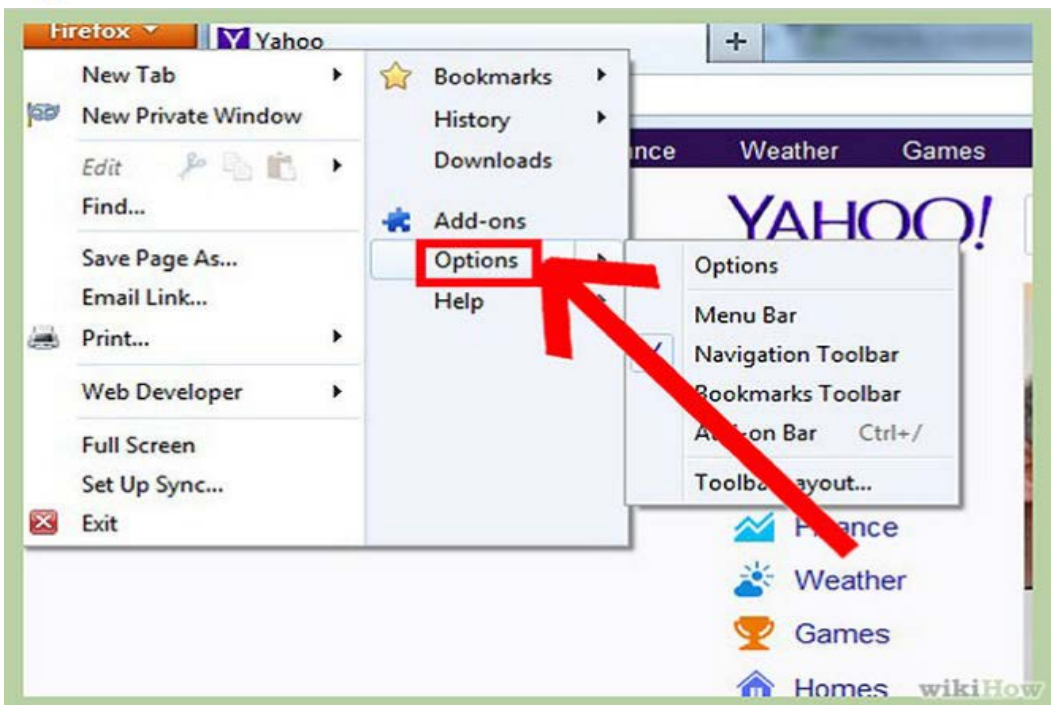

6 If you want to choose which websites to allow and still keep the blocker functionality, under the Pop-ups section, choose "Manage exceptions" instead. Write down a list of websites you don't want Chrome to automatically block.

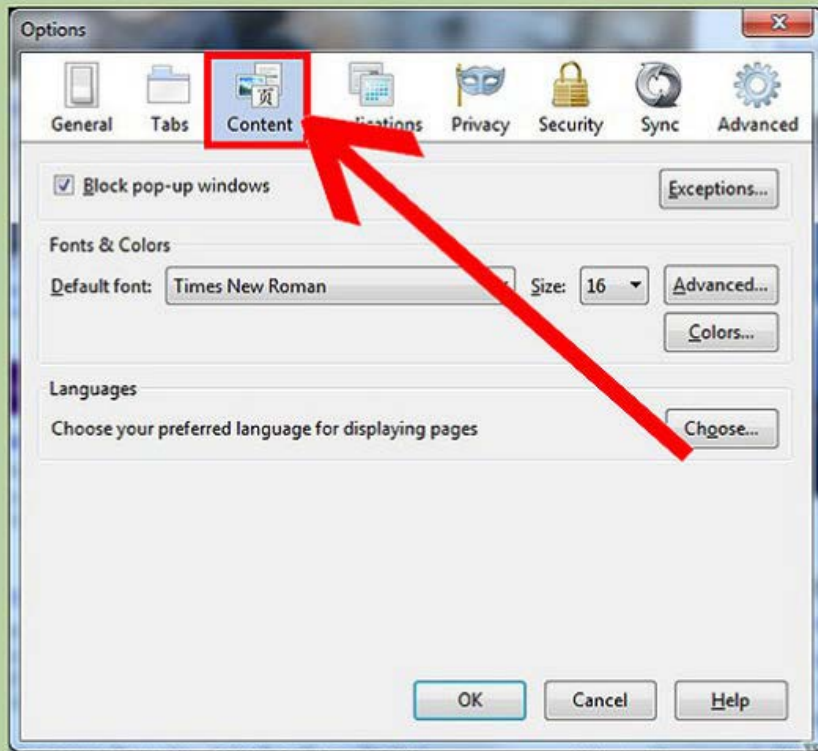

Mozilla Firefox

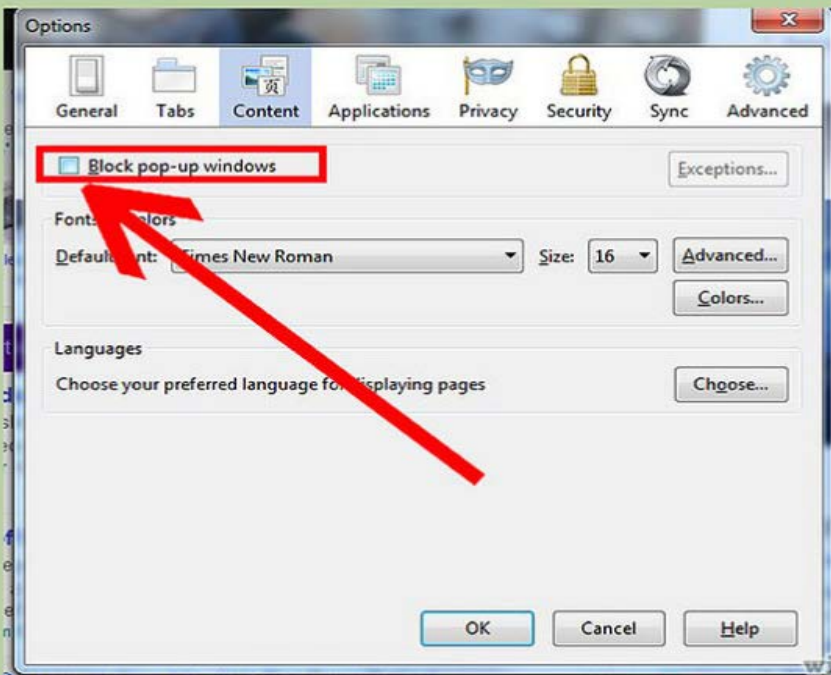

1 Open the Firefox menu after opening the browser.

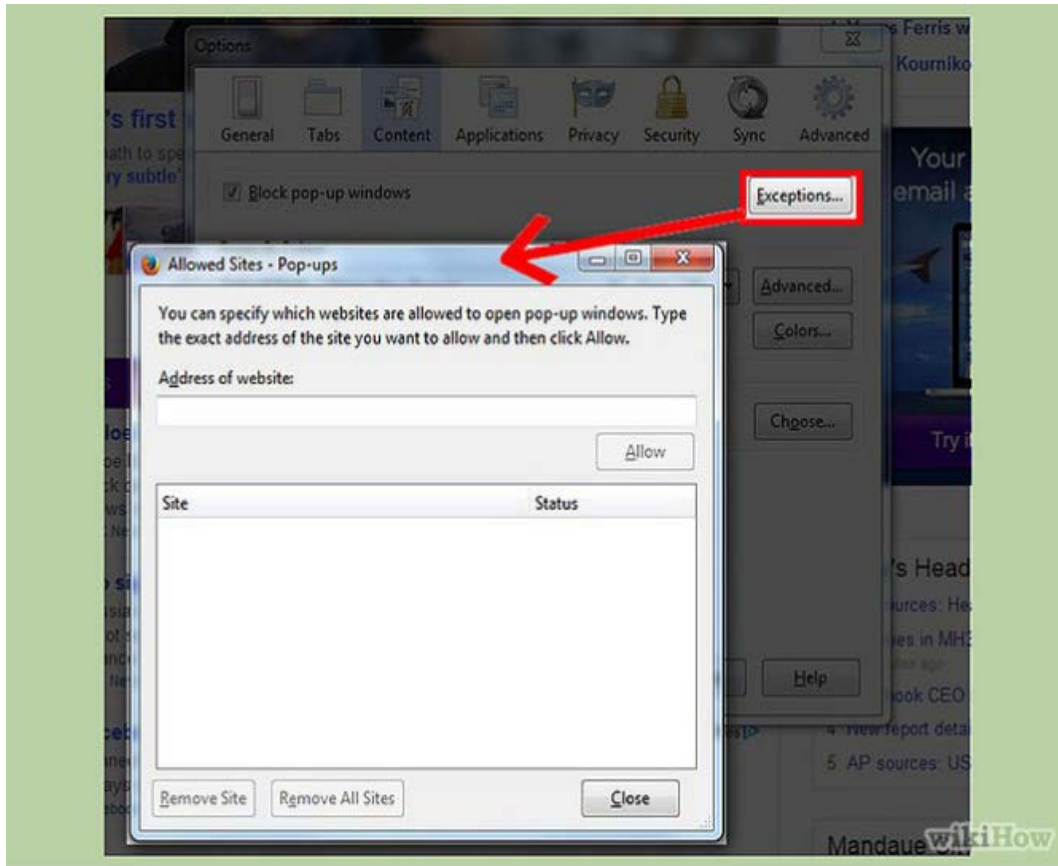

2 Select "Preferences."

3 Navigate to the Content tab.

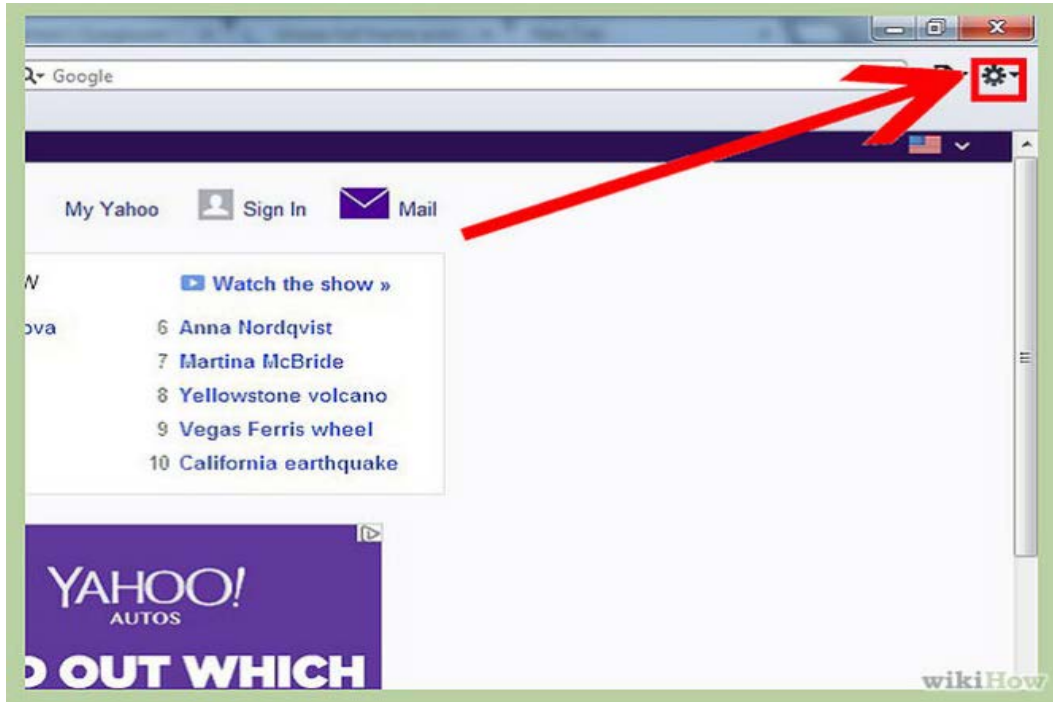

4 On the first option, uncheck the "Block pop-up windows" box. This will disable the popup blocker function.

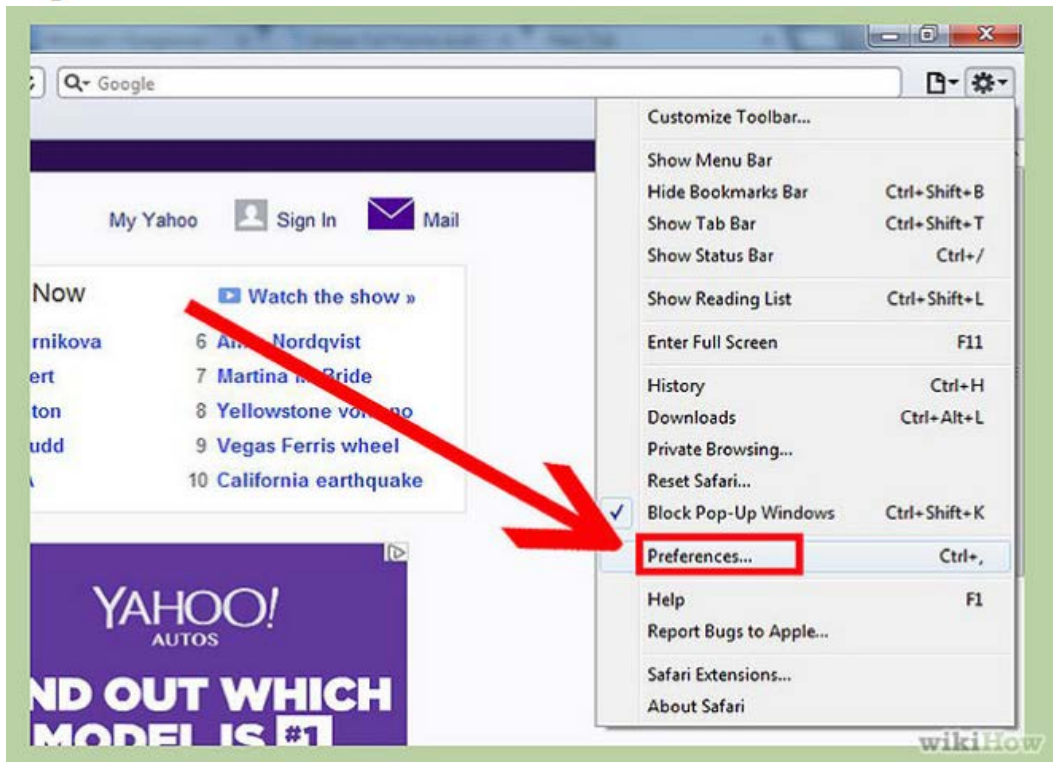

- 5** If you want to choose which websites to allow and still keep the blocker functionality, to the right, choose "exceptions" instead. Write down a list of websites you don't want Firefox to automatically block.

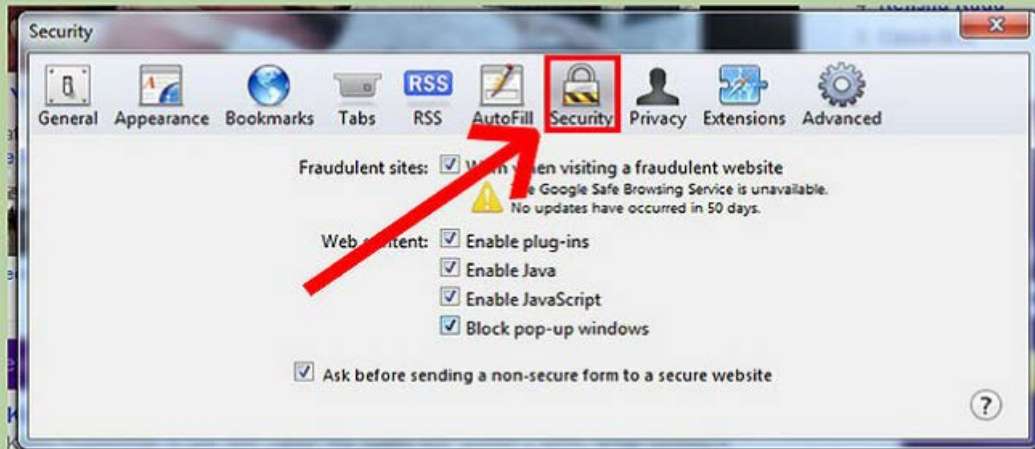

Apple Safari

1 Open a Safari browser and click on the Safari dropdown menu.

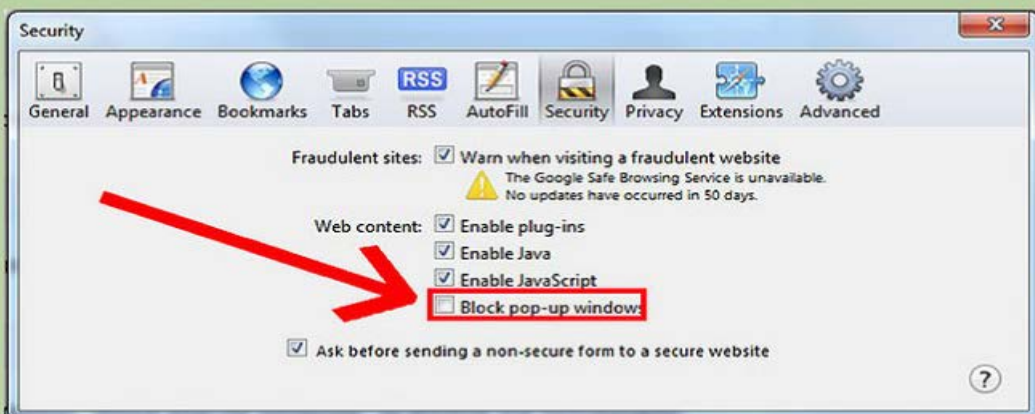

2 From the dropdown menu, select "Preferences."

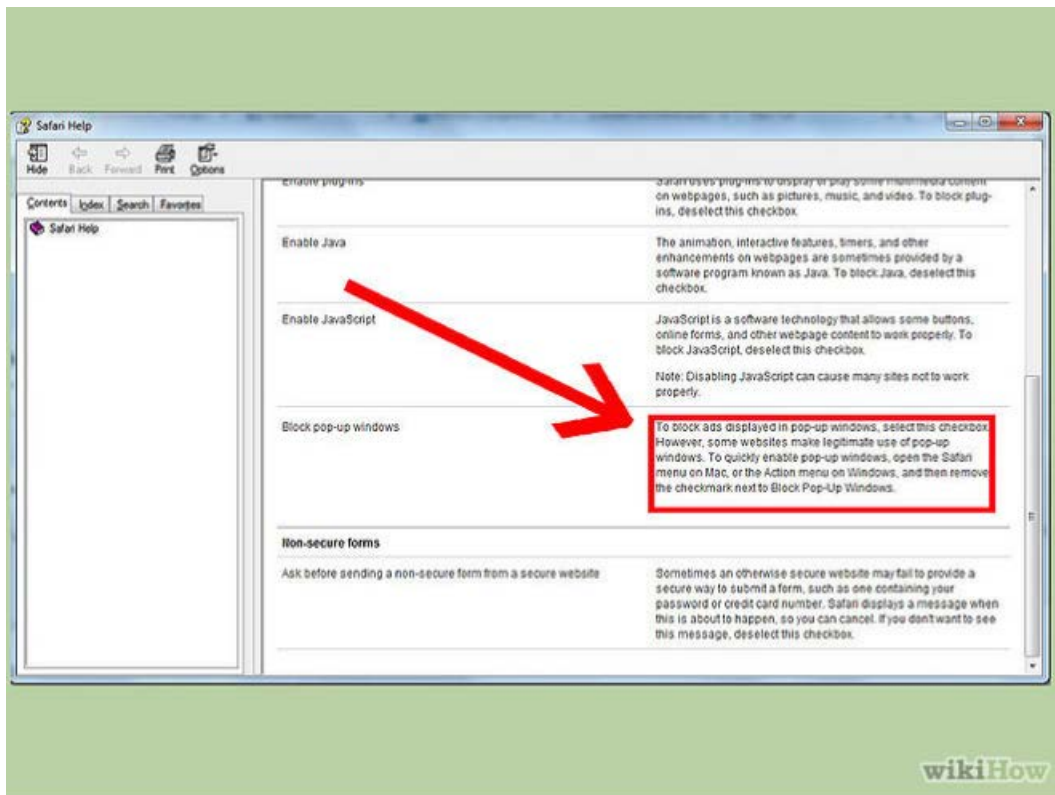

wikiHow

3 Once in Preferences, go to the Security tab.

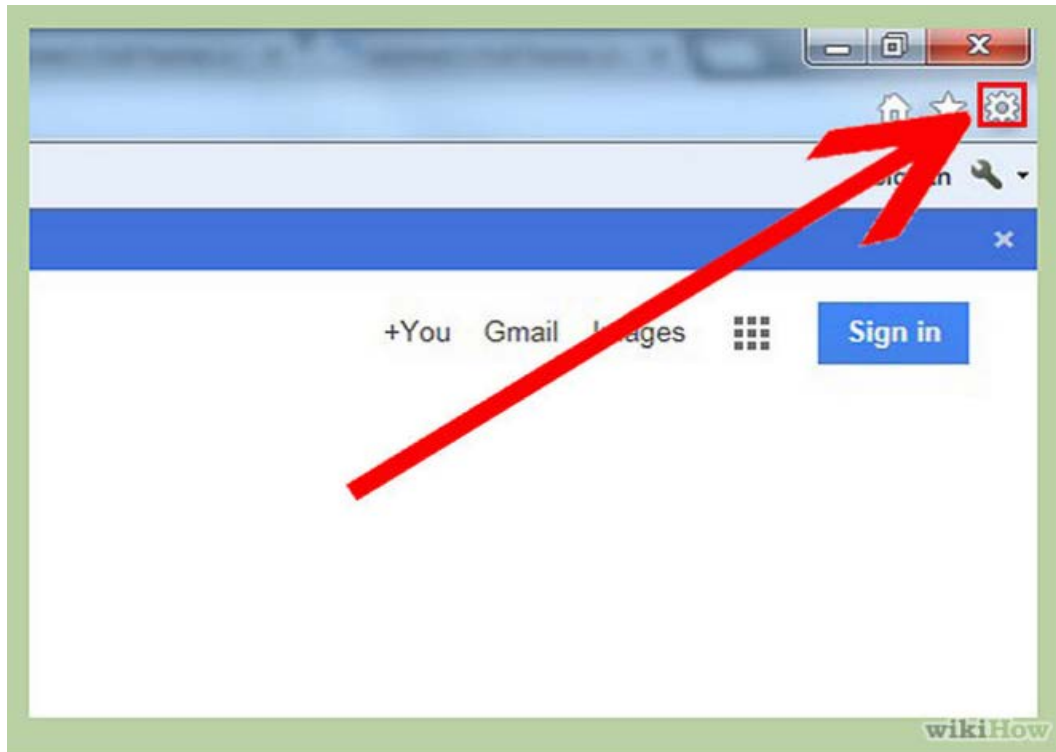

wikiHow

4 Uncheck the option "Block pop-up windows" to disable the functionality.

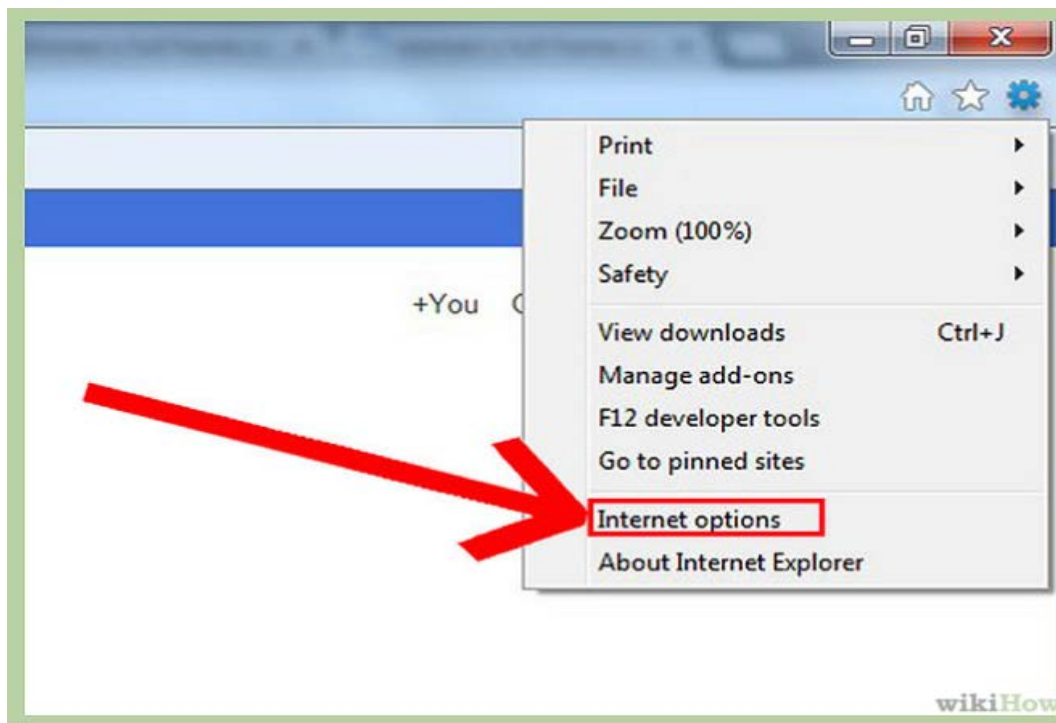

5 You cannot manage exceptions in Safari. You either block all websites from displaying popups or none at all.

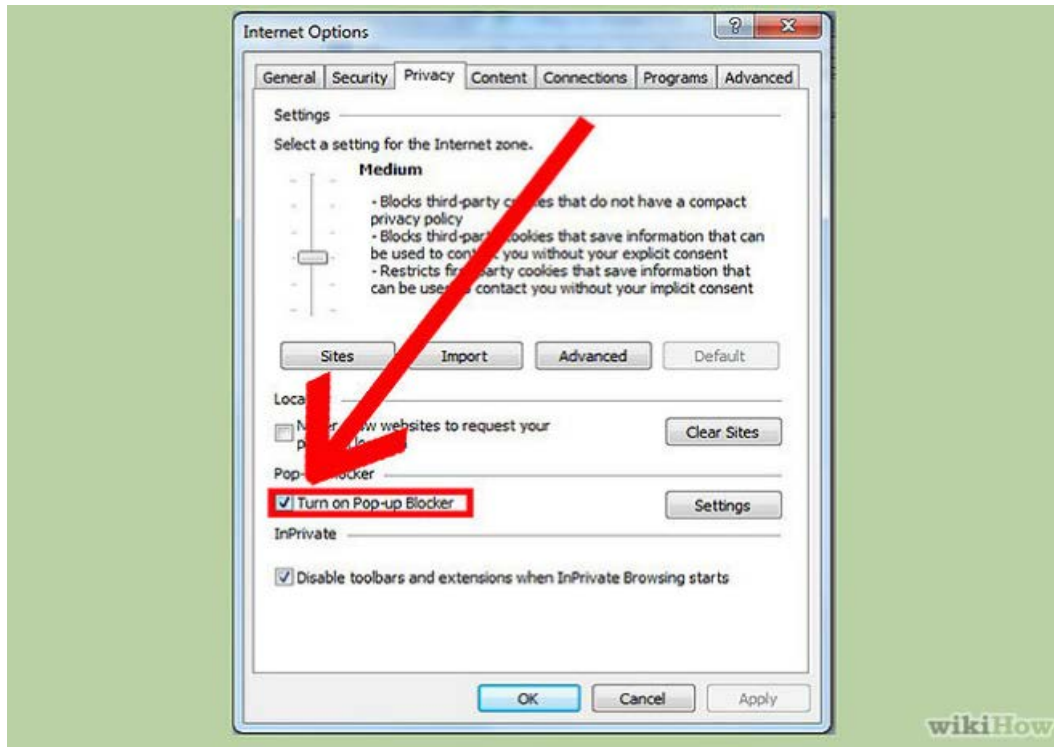

Microsoft Internet Explorer

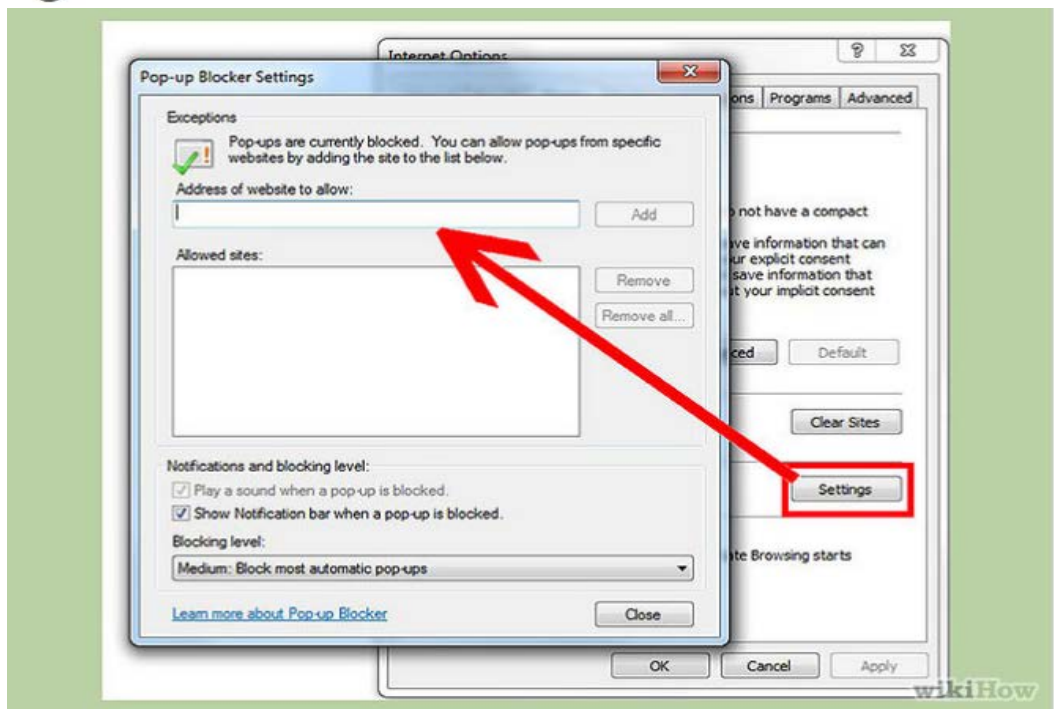

- 1 Open Internet Explorer and click on the Tools button.

- 2 Click on "Pop-up Blocker."

3 Click Turn Off Pop-up Blocker to disable the functionality.

4 If you want to choose which websites to allow and still keep the blocker functionality, click "Pop-up Blocker Settings" instead. Write down a list of websites you don't want Internet Explorer to automatically block.
