LIVESTOCK VETERINARIAN RESOURCE GUIDE

The Delaware Department of Agriculture encourages all animal owners to have a relationship with a licensed veterinarian to ensure their animal is healthy and, in the case of an emergency, the animal can obtain the quality care it needs. The veterinarians in this resource guide have agreed to have their practices and contact information listed. These veterinarians currently care for livestock and offer inspections for health certificates as one of their services. In addition, they can handle any specific testing required by the various shows and expos you will attend throughout the year. This guide serves as a resource only and is not an endorsement by the Delaware Department of Agriculture.

Dr. Christina Dayton-Wall, DVM
All Creatures Veterinary Services
