

University of Delaware Bee Team

***Honey harvesting, tasting, and tour of
UD's extracting room!***

Saturday August 23rd, starting 9:00am
Raindate August 24th

This time we'll be talking all about HONEY

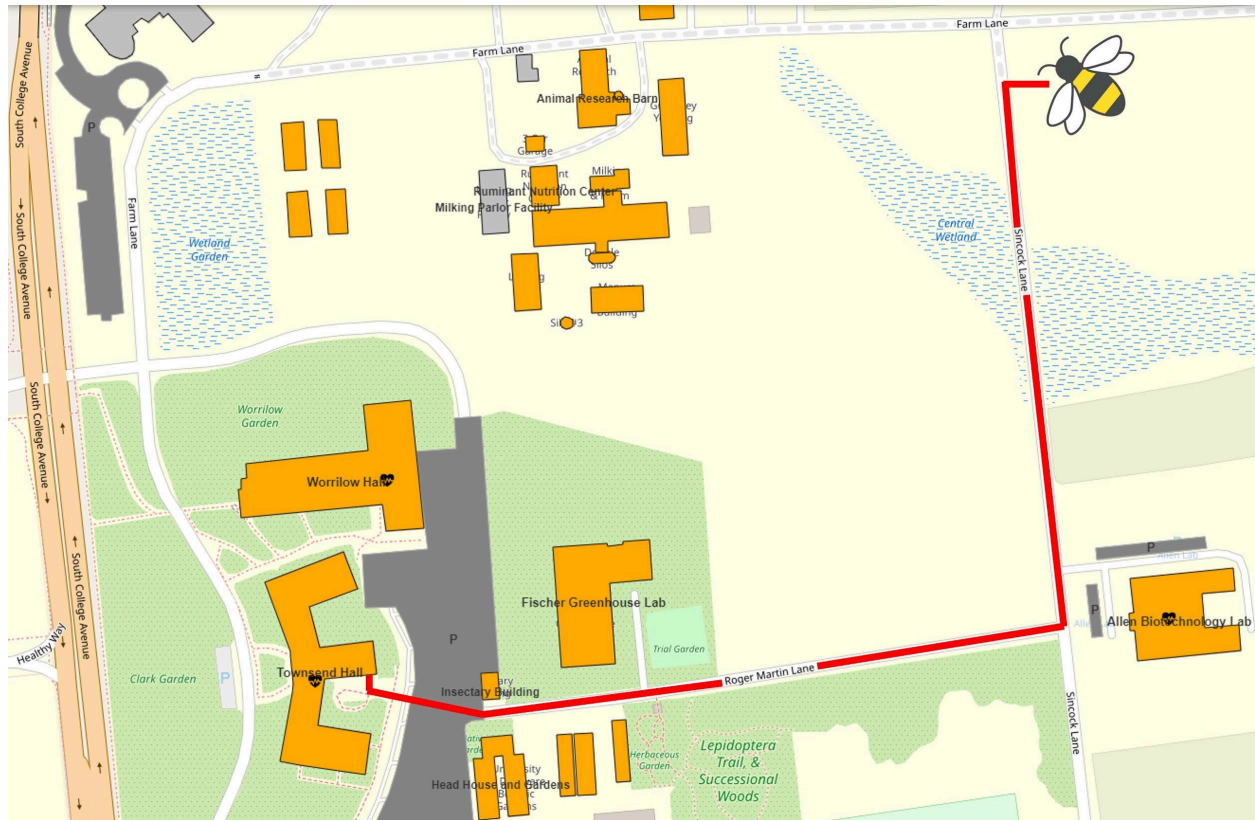

Bring along a sample jar of your honey for a honey tasting!

We will tour UD's extraction room, so no open hive this time.

- **Discussion and Q&A starting at 9am-** When to harvest? How to pull honey? We all do it a little differently, so it will be great to hear everyone's experience.
- **Honey Tasting-** Bring along a jar to share and we'll have a tasting! We would also love to see everyone's label and packaging. No honey yet? That's fine, you can just try ours! *Tasting spoons (and napkins!) will be provided
- **Around 10am, walk to UD's extraction facility-** Take a short walk or drive across Farm Lane to see our extraction room and some of our new equipment. Depending on how many of us there are, it may be crowded, but we'll squeeze in for a look!

Contact UDBeeTeam@udel.edu with any questions

**Find the UD Apiary at 535 Sincock Lane, near the corner of Farm Lane
(We are located behind Townsend Hall, 531 S. College Ave, Newark, DE)**
