

# University of Delaware

## *Overwintering Colonies and Open Hive!*

**Saturday Sept 27th, starting 10:00am**

**Raindate: 9/28/25**

**This month we'll discuss preparing our hives for winter. We can cover the basics, but everyone has different techniques for bringing their colonies through winter, so please share what works for you**

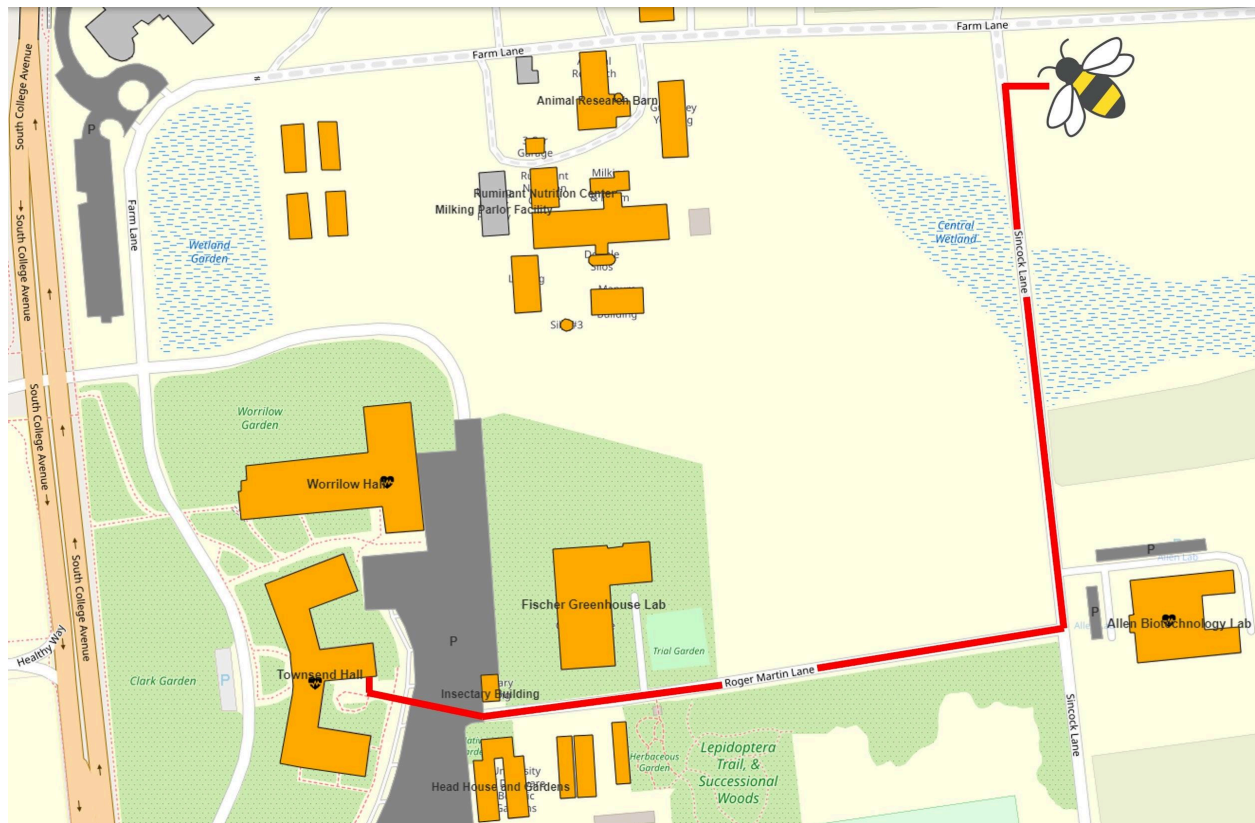

- **Discussion and Q&A starting at 10am.** We'll have time to discuss overwintering prep, as well as general Q&A. Bring your questions; this is a great group to help troubleshoot anything going on in your hive!
- **Live demo at 11am.** We will inspect a hive at the UD Apiary Teaching Yard. Come check out our setup, help us figure out if we're in good shape for the season ahead, and pick up tips from everyone in attendance
- If you'd like to bring a contribution, a [sign-up sheet can be found here](#)

**\*This is a B.Y.O.V. (Bring Your Own Veil) event!**

*Veils required to attend the hive demo*

Contact [UDBeeTeam@udel.edu](mailto:UDBeeTeam@udel.edu) with any questions

**Find the UD Apiary at 535 Sincock Lane, near the corner of Farm Lane  
(We are located behind Townsend Hall, 531 S. College Ave, Newark, DE)**
