

# Integrated Weed Management Field Day

**November 2, 2017**

**10 am – 2 pm**

**USDA-ARS Beltsville Agricultural Research Center**

Meeting at National Agricultural Library  
10301 Baltimore Ave, Beltsville, MD 20705

Watch a field demonstration of the Harrington Seed Destructor (HSD), a new machine to destroy weed seeds during harvest, and learn the latest about herbicide resistant weeds and integrated weed management innovations. The field tour will be led by Dr. Steven Mirsky of USDA ARS with participation from Delaware, Penn State, NC State, and Virginia Tech Weed Specialists. This is a free event. CCA credits available. Lunch is included!

## TOPICS INCLUDE:

- Update on herbicide resistance in the Mid-Atlantic
- Harrington Seed Destructor Demonstration
- Field tour of exciting weed and cover crop management research
- And learn about other herbicide resistant weed management tactic

**TO RSVP:** Contact Karen Adams, UD Carvel Bldg  
([adams@udel.edu](mailto:adams@udel.edu) or 302-856-2585). Additional  
information will follow registration.
