

Department of Electrical and Computer Engineering
University of Massachusetts Dartmouth

ECE160: Foundations of Computer Engineering I (Spring 2023)
Instructor: Dr. Liudong Xing

LAB # 1 Solution

1. The first C program

```
/* The first C program learned in ECE160 */  
#include <stdio.h>  
void main(void)  
{  
    printf("Hello world!");  
}
```

2. Modify the first C program in Task 2 - Step 6, then compile and run the program so that the following statement can be output to the screen.

Have a great semester spring 2023!

Solution:

```
#include <stdio.h>  
void main(void)  
{  
    printf("Have a great semester spring 2023!");  
}
```
