Average number of PT students affiliating per year: 75 Average number of PTA students affiliating per year: 0 Is your clinical site willing to offer reasonable accommodations for students under ADA? © Yes © No Please explain: Need to go through a formal request process to the CCCE, describing the issue and specific accomodation requested. Facility will evaluate if this is request can be accomodated or what accomdations could be considered. What is the procedure for managing students whose performance is below expectations or unsafe? Weekly meetings identify whether student is "on course" in relationship to specific goals. If not on course, plan is made for remediation and time frame is stated for achievement of goals. If goals are not met within stated time frames, then school and facility and student need to agree on a plan. Depending on the level of progression to identified goals, the student will be continued, continued with specific condiditions and time frames or terminated. All of this is done with appropriate communication with the student and academic instituation and clearly written expectations for performance. Explain what provisions are made for students if the clinical instructor is ill or away from the clinical site. - br/> (Answer if the clinical center employs only one PT or PTA.): All Cl's have an identified back up and they would assume responsibility for coverage.
