BITS & BYTES

April 2014

STS
Student Technology Services
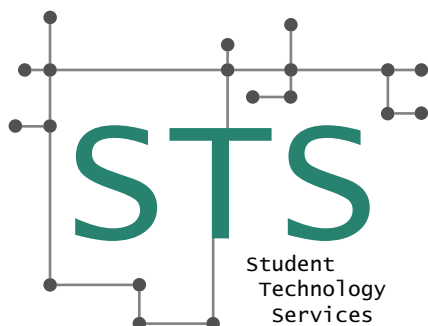

The mission of Student Technology Services is to enhance the student experience by advocating for a technology-rich environment that is essential to the successful learning and enjoyable living of our students. Bits & Bytes is a monthly newsletter highlighting STS services and initiatives.

STS SUPPORTS A VARIETY OF TECHNOLOGY INITIATIVES THROUGHOUT THE YEAR

### STS SHOWCASING NEW TECHNOLOGY AT OLIN LIBRARY'S TASTE OF TECHNOLOGY FAIR

Student Technology Services participated in the Taste of Technology fair organized by Olin Library and promoted the WUSTL Mobile App and print@wustl.edu.

Showcasing everything from iPads to projectors and offering tips on photography, data visualization, e-book access, and more, the fair was a chance for all members of the university community to sample a smorgasbord of the technology resources available through the Libraries.

Students, faculty, and staff stopped by the library on Wednesday, March 19, and met with library staff and representatives from STS, The Writing Center, Blackboard, and Apple offering demos and information on a diverse selection of topics and items.

Sherry Holmes, STS Programs Manager and Chris Huels, Manager of Technical Services and Support answered student and staff questions on various technology-related topics.

PLAN IT · BUILD IT · SEE IT
STEER-IT

STEER-IT is a fast-paced, hands-on, interactive Pre-Orientation program championed by STS, and is geared toward incoming freshman students who have a genuine interest in technology. Registration for Fall 2014 Pre-O Programs begins May 1, 2014. All registrations are on a first-come, first-served basis. To register please visit the First Year's website.

For more information about STEER-IT please visit: sts.wustl.edu/steer-it

TOASTMASTERS AT WASHINGTON UNIVERSITY IN ST. LOUIS

Toastmasters will be opening two WUSTL clubs, one at West Campus and another on the Danforth Campus.

In an effort to improve their leadership, communication and presentation skills, several IS&T employees, participants in the SPIN-IT^2 leadership program, have joined as charter members of WUSTL Toastmasters.

UNIVERSITY-WIDE FOOD DRIVE
APRIL 3-15

STUDENT TECHNOLOGY SERVICES is once again participating in the PB&Joy food collection campaign. A collection bin will be stationed in the STS lobby until April 15. Stop by and bring some canned goods to donate.

The 4th annual PB&Joy university-wide food drive supports Operation Food Search's efforts to feed 135,000 St. Louis area children living in poverty, particularly during the summer when they lose access to free/reduced school meals.
