Special Graduation Edition

Commencement 2013

"If you want to be first class, it is about the content of your character, the quality of your ideas, the kindness you have in your heart." Newark Mayor Cory Booker, WUSTL Commencement Speaker, 2013

Congratulations, Class of 2013

STS is proud of its STS Techs and STCs who are graduating in the Class of 2013. They each have contributed their talents to make STS an excellent customer service provider of technology services. As the commencement speaker, Cory Booker, noted, becoming "first class" requires collaboration, innovation and an ethic of service. Our student workers have demonstrated these skills, and we are confident that they are well prepared for the next chapter of their lives.

Whether to medical school, post-graduate programs, technology firms or other businesses, we send our tech crew off with fond memories and our best wishes.
