

February 1, 2022

Dear Colleagues,

We hope that you are well! We are pleased to share these updates, and hope that you will join us in the coming months for the Spring 2022 CMHSR Seminar Series. As always, please do not hesitate to reach out to us if we can be of support. We will look forward to collaborating with you in the new year!

Best,

Leopoldo J. Cabassa and Byron J. Powell
Co-Directors, Center for Mental Health Services Research
Brown School at Washington University in St. Louis

CMHSR Faculty Honors and Awards

Congratulation to **Dr. Enola K. Proctor** for her recent Appointment as [a member of the Standing Committee for CDC Center for Preparedness and Response](#).

Congratulation to **Dr. Leopoldo J. Cabassa** for his recent appointment as [a member of the NIH Center for Scientific Review Advisory Council](#).

Gretchen J. R. Buchanan and **Byron Powell** received funding from the National Cancer Institute-funded [Washington University Implementation Science Center for Cancer Control](#). The 2-year pilot grant will support their study titled, "Let's start with what we know: A mixed methods assessment of practice-based implementation strategies for addressing behavioral health in primary care."

Dr. Michael Park, NIMH T32 Postdoctoral Scholar, accepted a tenure-track assistant professor position at Rutgers University, School of Social Work. His appointment will start in Fall 2022

Upcoming Presentations by CMHSR Faculty and Fellows

Cabassa, L. J. (2022 February 28). [Implementation Science in the Context of Environmental Health Disparities & Environmental Justice Research](#). Panelist at Advancing Environmental Health Equity Through Implementation Science, National Institute of Environmental Health Sciences.

Workshops and Conferences

The NIEHS announce their workshop: **Advancing Environmental Health Equity Through Implementation Science between February 28 and March 1**. The purpose of this workshop is to explore how environmental health scientists can use implementation science to inform the development, adaptation, implementation and scale-up of interventions, practices, and policies to prevent and/or mitigate potentially harmful environmental exposures and ultimately advance environmental health equity. **For registration and further information, [please follow the link](#).**

The 2022 CHIPS Research Training Institute will be hosted by UCL, May 16-20. The meeting will be hosted by Dr. Bonnie Zima and UCLA. It will be either all in-person or an all-web meeting depending on COVID19 impact. The choice will be made closer to the meeting when the impact of the Omicron variant will be clearer.

If you are a child psychiatry resident, postdoctoral fellow, or junior faculty member with a strong interest in mental health research for children and adolescents, we invite you to apply to the Child Intervention, Prevention, and Services (CHIPS) program.

Funded through a five-year grant from the National Institute of Mental Health, this dynamic, interdisciplinary training consortium will enhance your career and help you find direction and faculty mentors. By attending the program's five-day intensive annual Summer Research Institute, you'll refine your objectives and shape a large-scale research project.

The deadline for the application is Sunday, February 14, 2022. For applying and further information please visit [CHIPSFellows.com](https://www.chipsfellows.com)
