CMHSR Seminar Series - Spring 2022

February 22, 2022 04:00 pm-05:00 pm CST

Jessica L. Schleider presents *Little Treatments, Big Effects: Building Brief Interventions to Reduce Youth Psychopathology at Scale*

To register: [click here](#)

Dr. Jessica L. Schleider is an Assistant Professor in the Department of Psychology and Clinical Psychology Ph.D. Program at Stony Brook University (SUNY), with research on brief, scalable interventions for youth depression and anxiety.

March 29, 2022 04:00 pm-05:00 pm CST

Gretchen Buchanan presents *Implementation of Integrated Behavioral Healthcare in Primary Care*

To register: [click here](#)

Dr. Gretchen Buchanan is a post-doctoral research fellow in the CMHSR who studies implementation of social-emotional and behavioral health services within the primary care medical setting. She is also interested in examining the multi-level nature of implementation mechanisms and mapping implementation strategies for intervention scaling up and out.

April 26, 2022 12:30 pm-1:30 pm CST

Brenna Maddox presents *Suicide Prevention and Mental Health Promotion for Autistic Individuals: The Important Role of Stakeholder Engagement*

To Register: [click here](#)

Dr. Brenna Maddox is an Assistant Professor at the University of North Carolina-Chapel Hill, in the Department of Psychiatry. As the implementation scientist for the TEACCH Autism Program, her work focuses on improving community services for people on the autism spectrum across the lifespan.

Co-sponsored by: Brown School's Open Classroom

May 31, 2022 4:00 pm-5:00 pm CST

Michael Park presents *Determinants of Mental Health and Stigma to Mental Health Service Use Among Filipino and Korean Americans*

To register: [click here](#)

Dr. Michael Park is a post-doctoral research fellow in the CMHSR who studies the social determinants of mental health and disparities in mental health service utilization. Specifically, his dissertation examines how Asian American youth internalize racial/ethnic stereotypes as well as the impact of internalization on the mental health of Asian American youth, and he plans to investigate how the patterns of racial stereotypes influence the mental health service utilization.
