

Club NF Pottery

We invite you to attend our upcoming Club NF event, a focused, play-based therapy and educational program for children in grades K-8 with NF1 and their families. Interact directly with St. Louis Children's Hospital therapists to discover how your family can use every day "play" activities to improve skills that may be delayed in your child with NF1.

Join us on Saturday, June 11th, at Pottery Hollow in downtown Kirkwood where we will focus on the following skills which will benefit your child in these areas:

- Fine motor skills including handwriting, tying shoes, getting dressed, and organizing a school binder
- Executive function skills such as following multiple step directions and finishing homework and school projects
- Social skills to enable your child to speak in a group, initiate conversation, make eye contact and boost confidence
