

# Club NF Family Picnic

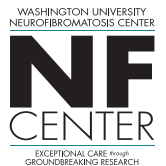

The Washington University NF Center and St. Louis Children's Hospital invite you to attend our upcoming Club NF event, a FREE therapy and educational program for children with NF1.

Join us on Saturday, June 3, at Shaw Park for a morning of outdoor activities and a picnic lunch. The activities will target and promote development of the following skills often delayed in children with NF1:

- Gross motor skills, including running, jumping and balancing. Activities that use large muscle groups strengthen underdeveloped muscles and improve cardiovascular function.
- Social skills to enable your child to speak in a group, initiate conversation, make eye contact and boost confidence.

View additional event information and register at [nfcenter.wustl.edu/events](http://nfcenter.wustl.edu/events)
