

Club NF goes to the Science Center!

The Washington University NF Center and St. Louis Children's Hospital invite you to attend our upcoming Club NF event, a FREE therapy and educational program for children with NF1.

Join us on Saturday, October 7th at the Saint Louis Science Center for an instructional event where participants will create a Rube Goldberg machine and learn to build Salvage Bots. The activities will target and promote development of the following skills often delayed in children with NF1:

- Fine motor skills including handwriting, tying shoes, getting dressed and organizing a school binder
- Executive function skills such as following multiple step directions, and finishing homework and school projects
- Social skills to enable your child to speak in a group, initiate conversation, make eye contact and boost confidence

View additional event information and register at nfcenter.wustl.edu/events

WHO: *Children ages K-8 with NF1, and their siblings

WHAT: Children will participate in building a Rube Goldberg machine and Salvage Bots

WHEN: Saturday, October 7, 2017, 10 a.m.-noon
