

This file was downloaded after successfully submitting access request for the OASIS projects. I understand that access to OASIS-1 and OASIS-2 files are now available for download at <https://sites.wustl.edu/oasisbrains/datasets/>. I will receive an email from OASIS administrators with access to a project on central.xnat.org if my application is accepted for OASIS-3 or OASIS-4.

Data Use Agreement

1. User will not use the OASIS datasets, either alone or in concert with any other information, to make any effort to identify or contact individuals who are or may be the sources of the information in the dataset. If User inadvertently receives identifiable information or otherwise identifies a subject, User will promptly notify OASIS and follow OASIS's reasonable written instructions, which may include the return or destruction of identifiable information.
2. User is strictly prohibited from generating or using images or comparable representations of the face, head, or body for facial recognition, re-identification, or other purposes that could allow the identities of research participants to be readily ascertained.
3. User will not use or further disclose the OASIS-3 or OASIS-4 other than as permitted by this agreement or as otherwise required by law. Additionally, User will not use or further disclose any derivative works or derivative data of the OASIS datasets, in any case in whole or in part, that could be used to reconstruct a facial image. User shall report to OASIS promptly upon User's discovery of any unauthorized use or disclosure not permitted by this License. User shall provide the following information: (1) the nature of the use or disclosure; (2) the information used or disclosed; (3) the identity of the persons and/or entities that made the use or disclosure; and (4) what corrective action will be taken by User as a result of the use or disclosure. User shall take any other reasonable actions available to it to mitigate any detrimental effects of the use or disclosure.
4. User will acknowledge the use of OASIS data and data derived from OASIS data when publicly presenting any results or algorithms that benefitted from their use. Papers, book chapters, books, posters, oral presentations, and all other printed and digital presentations of results derived from OASIS data should contain the following:
