

Sustainable Purchasing with Office Essentials

Published February 2018

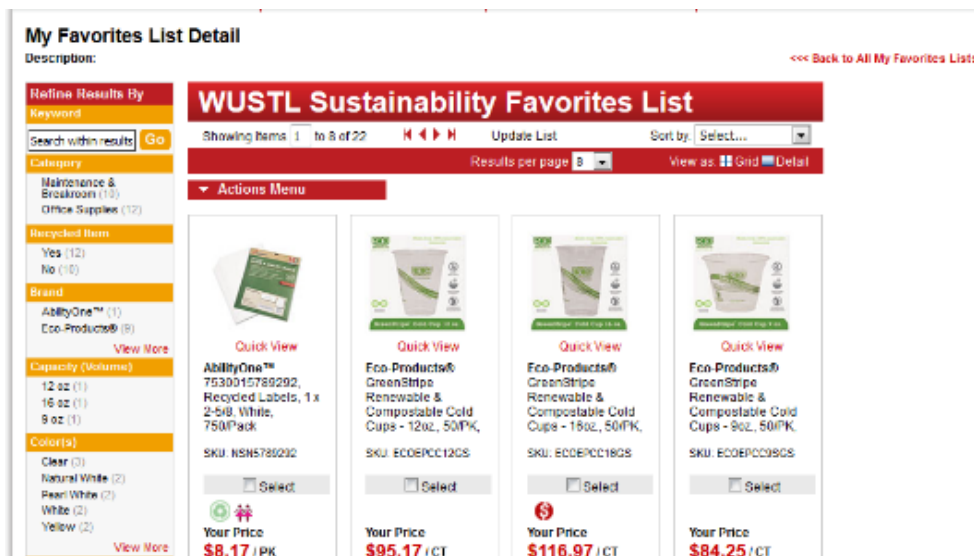

The Office of Sustainability has partnered with Office Essentials to discover options for environmentally-friendly purchases and to develop a list of our top picks for office supplies.

To search for office supplies that meet specific sustainable standards (i.e. 30% recycled paper, compostable plates), search for the item and qualities you're seeking in the Search Bar. To see the Office of Sustainability's list of sustainable office supplies, see below.

In the top right corner, click on "Favorites Lists." Your lists will appear.

"WUSTL Sustainability Favorites List" will appear below your Shared Lists.
