

St. Louis BRAIN BEE

What is the Brain Bee?

A neuroscience competition for students in grades 9-12, the Brain Bee allows students to demonstrate their knowledge of the brain through studying *Brain Facts* written by the Society for Neuroscience.

Why Participate?

Participants will enjoy hands-on brain activities, meet teenagers from other schools, and learn neuroscience. On the day of the competition, we will host a panel of WashU faculty and students to share about their experiences. If you win the Brain Bee, you'll be awarded a summer research fellowship at Washington University, along with the opportunity to participate in the virtual National Brain Bee.

Questions? Contact:

Dr. Erik Herzog: herzog@wustl.edu
Alicia Yang: alicia.yang@wustl.edu
Jake Joseph: jake.j@wustl.edu

When and Where:

Saturday, March 27, 2021

On Zoom or in Rebstock Hall at
Washington University

How should I prepare?

The Brain Bee competition questions will be based off of a Neuroscience handbook found at <https://www.brainfacts.org/the-brain-facts-book>

Tutorials are college-student-led review sessions. *These tutorial days are highly recommended!*

Time and Location: TBD, Please check our website in Mid-February
