

CONGRATULATIONS 2021 SEED GRANT WINNERS

LEDUCQ FOUNDATION

Gyu Seong Heo, PhD
Washington University
School of Medicine

Annika Hess, PhD
Hannover Medical
School

"PET Imaging NOX2 in
Inflammation-Fibrosis Axis in
Adverse LV Remodeling"

"Multiparametric molecular
imaging to assess the role of
macrophages for fibroblast
activation and cardiac repair
after myocardial infarction"

**The Inflammatory-Fibrosis Axis in Adverse LV Remodeling:
translating mechanisms into new diagnostics and
therapeutics (Immuno-Fib HF)**
