

## Recruitment for Treatment Study for Smell Change

Persistent change of smell after COVID-19 is no fun.

Research subjects sought for mindfulness-based group therapy.

You may be able to participate if:

- You have persistent COVID-related smell change
- You are an adult living in the continental USA
- You have computer access with video calling and an email address

This study involves:

- Up to 10 weeks of virtual group meetings
- Associated surveys on smell function

To participate, please use the QR code  to complete the screening survey or use link:
