
MODEL 3: Ceiling Projector with Web camera, Podium or User Computer

This model has a ceiling projector that is connected to a podium computer or may be connected to a user's computer. A web camera is at the podium. Use the podium touch screen to control settings.

Example: Can be used as a standard lecture mode presentation. One may or may not be connected to on-line students at the same time. If connected to on-line students, use the podium web camera to either face the presenter or the class room.

Visual of room and various components

- 1 Computer Monitor
- 2 Web camera
- 3 Control Panel for podium computer
- 4 HDMI Cable for user computer option*

***Note:** Sam Fox IT only provides connection adapters to faculty. If you do not have one submit a help desk ticket.

Technology Set Up

- A: Turn on the control panel.
- B: Select your preference for either the podium computer or your computer.
- C: Connect to Zoom or other presentation tools.
- D: Test audio and video setting from within Zoom preference to make sure system is working.
- D: Ask students in room to mute sound and mic on laptops or other electronic devices if they are also connecting to the Zoom while in-person.
