

Washington University in St. Louis

SCHOOL OF MEDICINE

Center for Cardiovascular Research
Department of Medicine, Cardiovascular Division

TENURE TRACK FACULTY POSITIONS IN CARDIOVASCULAR MEDICINE AND RESEARCH

(Assistant, Associate or Full Professor)

Washington University School of Medicine invites outstanding candidates to apply for tenure-track positions to join the Center for Cardiovascular Research in the Department of Medicine, Cardiovascular Division. The applicant should have a MD and/or PhD with a basic and/or translational science research program that investigates any aspect of cardiovascular development, health, or disease. The successful applicant will join a multi-disciplinary and collaborative faculty performing cutting edge heart and vascular research with a strong emphasis on disease mechanisms.

Our existing faculty members are world-renowned investigators in cardiovascular biology and across the spectrum of age and scientific disciplines including atherosclerosis, biochemistry, biophysics, developmental biology, cardiac molecular and cell biology, electrophysiology, genetics, heart failure, cardio-immunology, and cardio-oncology. Our collective mission is to provide novel mechanistic insights into cardiovascular physiology and pathophysiology, and to discover mechanisms of disease that will lead to the development of innovative new therapies to improve the lives of individuals with cardiovascular diseases.

To learn more visit our website at: <https://cardiovascularresearch.wustl.edu/>

The Center for Cardiovascular Research at Washington University School of Medicine is a global leader in cardiovascular research and premier institute for physician scientists invested in basic and translational research. Our faculty are remarkably successful and have been awarded substantial external grant support and are recognized as leaders in their respective fields. The Center members have ample laboratory space in modern research buildings, access to cutting-edge technologies, substantial shared infrastructure including a world-class mouse cardiovascular phenotyping core, and vast opportunities to translate their discoveries into the clinical setting.

The successful applicant would be appointed a faculty position within the Department of Medicine's Cardiovascular Division. A letter of interest, accompanied by a complete curriculum vitae, should be electronically sent to both: klavine@wustl.edu and bryantb@wustl.edu.

Washington University School of Medicine is an Equal Opportunity Employer. Qualified applicants receive consideration for employment without regard to race, color, religion, sex, national origin, age, genetic information, physical or mental disability, military or veteran status, sexual orientation, gender identity/expression, or other protected status in accordance with applicable federal, state, and local laws and regulations.
