

HMC and Event Management Event Services and A/V Pricing (Effective FY24)

STUDENT AFFAIRS AT WASHINGTON UNIVERSITY

Event Management and the Harvey Media Center offer a/v services and equipment in Premier event spaces that are not part of the “standard offering” of the space. We consider these items “above and beyond” the standard equipment in the space. These items are billable to all Student Affairs departments, SU recognized student groups, University departments, and external clients.

*For services that specify “plus \$75/hr of event duration”, this rate remains the same even if multiple services are stacked. For example, using the multi-channel audio mixer and wireless mic kits for an event would only see a \$75/hr charge, and not \$150/hr, and so on...

Graham Chapel

- Staffed by technician - \$75/hr of event duration.
