

listen.

cLimate change.

What an empowering, yet terrIfying  
two wordS.

when i Think of  
climate changE,  
i think: altruism.

it is Not  
me versus them.  
it is  
us versus death.

privilege  
what a powerful weapon  
the color of my Skin  
my Ability  
my access to the Vaccine  
my college Education  
should be used to amplify the  
voices who are systemically silenced.

climate change  
is hurting communities  
now.  
indigenous communities  
black communities  
unshelTered communitiEs  
lAtinx communities  
women and childRen  
& more  
are hurtINg

what do we do?  
oh, there is so much to do.

listen.  
to.  
our.  
earth.  
when.  
she.  
is.  
yelling.
