

CURRICULUM VITAE
Abhinav Diwan, MBBS, FACC, FAHA

Date: 7-1-2020

Address and Telephone Numbers

Lab Website: www.diwanlab.com

Office: 827 CSRB-NTA, Center for Cardiovascular Research
St. Louis, MO 63110; Tel: 314-747-3457; Fax: 314-362-0186

Home: 52 Lake Forest Drive, St. Louis, MO 63117; Tel: 314-791-3565

Present Position:

- 5/15/2008-present: Staff Physician, Internal Medicine Service, VAMC, St. Louis, MO (5/8th appointment).
- 1/1/2019-present: Associate Division Chief for Research and Academic Affairs, John Cochran VA medical center
- 7/1/2020-present: Professor of Medicine (*with tenure*), Cardiovascular Division, Department of Internal Medicine, Washington University School of Medicine, St. Louis, MO
- 7/1/2020-present: Professor of Cell Biology and Physiology (Secondary appointment, *with tenure*), Washington University School of Medicine, St. Louis, MO

Education:

Undergraduate: Delhi Public School
Bhilai, CG, India

Graduate and Postgraduate:

- 01/1991-02/1997: M.B.B.S. (Bachelor of Medicine, Bachelor of Surgery), All India Institute of Medical Sciences, New Delhi, India
- 07/1997-07/1998: Internship in Internal Medicine, Baylor College of Medicine, Houston, TX
- 07/1998-07/2001: Residency in Internal Medicine (Medical Resident Investigator Track under the PSTP pathway), Baylor College of Medicine, Houston, TX
- 07/2001-07/2004: Fellowship in Cardiovascular Science, Section of Cardiology, Department of Medicine, Baylor College of Medicine, Houston, TX

Medical Licensure and Board Certification:

- 7/1997 Permanent Certification, ECFMG
- 11/2000 Diplomate of American Board of Internal Medicine in Internal Medicine
- 06/2004 Diplomate of National Board of Echocardiography in Adult Comprehensive Echocardiography (includes transthoracic, transesophageal and stress echocardiography)
- 11/2004 Diplomate of American Board of Internal Medicine in Cardiology
- 11/2003 State Medical License - Indiana (inactive)
- 12/2003 State Medical License - Ohio (inactive)
- 07/2008 State Medical License - Missouri (active)
- 12/2010 Recertified, American Board of Internal Medicine in Internal Medicine
- 12/2013 Recertified, American Board of Internal Medicine in Cardiology
- 10/2019 Recertified, ReASCE Examination of Special Competence in Adult Echocardiography (REASC)

Current Clinical Title and Responsibilities:

5/15/2008- current: Cardiology Staff Physician, Barnes Jewish Hospital

Responsibilities: Echocardiography

5/15/2008-current: Staff Physician, John Cochran VA Medical Center, St. Louis

Responsibilities: Echocardiography and attending on Cardiology consult Service. Associate Division Chief for Research and Academic Affairs.

Teaching Title and Responsibilities:

- 1) Professor of Medicine: Supervising residents and medical students on VA Inpatient Medicine Service, 4 weeks per year; Echocardiography at Barnes Jewish Hospital: two half-days/week- all ongoing
- 2) Lecturer, Molecular Foundations of Medicine course on Proteostasis for medical students, Washington University, Fall 2019
- 3) Member, Molecular and Cellular Biology program, DBBS, Washington University: supervising graduate trainees
- 4) Member, HOPE Center for Neurologic Disorders, Washington University: teaching graduate trainees
- 5) Member, Center for Regenerative Medicine, Washington University: teaching graduate trainees
- 6) Member, Children's Discovery Institute, St. Louis Children's Hospital: Teaching trainees
- 7) Member, Center for Reproductive Health Sciences (CRepHS), Washington University

Previous Academic Positions/Employment:

- 1/1/2016-6/30/2020: Associate Professor of Medicine (*with tenure*), Cardiovascular Division, Department of Internal Medicine, Washington University School of Medicine, St. Louis, MO
- 1/1/2016-6/30/2020: Associate Professor of Cell Biology and Physiology (Secondary appointment), Washington University School of Medicine, St. Louis, MO
- 5/15/2008-12/31/2015: Assistant Professor of Medicine (*tenure track*), Cardiovascular Division, Department of Internal Medicine, Washington University School of Medicine, St. Louis, MO
- 7/1/2013-12/31/2015: Assistant Professor of Cell Biology and Physiology (Secondary appointment), Washington University School of Medicine, St. Louis, MO
- 5/15/2008-12/31/2015: Staff Physician, Internal Medicine Service, VAMC, St. Louis, MO
- 07/15/2004-05/14/2008: Assistant Professor of Medicine, Clinical Track, Division of Cardiovascular Diseases, University of Cincinnati, Cincinnati, OH
- 07/15/2004-05/14/2008: Staff Physician, VAMC, Cincinnati, OH

University and Hospital Appointments and Committees

Clinical:

07/2004-05/2008: Staff Physician, University Hospital, Cincinnati, OH

07/2004-05/2008: Assistant Director, Echocardiography Laboratory, VAMC, Cincinnati OH

07/2004-05/2008: Member, VA Research and Development Committee, VAMC, Cincinnati OH

08/2006-12/2006: Director, Echocardiography Laboratory, University Hospital, Cincinnati OH

01/2010-02/2012: Member, Institutional Review Board, Washington University School of Medicine

1/2015-present: Member, VA Institutional Animal Care and Use Committee (IACUC), John Cochran VA Medical Center, St. Louis, MO

Research:

Curriculum Vitae

Abhinav Diwan, MBBS

- 09/2011-09/2012: Member, IRB committee, Human Research Protection Office, Washington University, St. Louis, MO
- 8/2011-11/2014 Member, K08 mentoring committee for Chris Holley, MD, PhD (Mentor: Jean Schaffer), Washington University, St. Louis, MO
- 7/2012-5/2013: Member, MA/MD Research Advisory Committee for Katherine Liu (Mentor: Scot Matkovich), Washington University, St. Louis, MO
- 11/2012-5/2013: Member, MA/MD Research Advisory Committee for Roy Emmanuel (Mentor: Babak Razani), Washington University, St. Louis, MO
- 11/2013-present: Member, DBBS Molecular and Cellular Biology program, Washington University, St. Louis, MO
- 11/2013-present: Vice Chairman, Institutional Animal Care and Use Committee (IACUC), VAMC, St. Louis, MO
- 11/2013-present: Member, DBBS PhD Admissions Committee, Molecular and Cellular Biology, Washington University, St. Louis, MO
- 1/2013-5/2016: Member, DBBS thesis committee for MSTP student Daniel Kaufman (Mentor: Michael Crowder), Washington University, St. Louis, MO
- 4/2013-6/2015: Member, DBBS thesis committee for graduate student Katherine Liu (Mentor: William Frazier), Washington University, St. Louis, MO
- 5/2014-present: Member, Hope Center for Neurological Disorders, Washington University, St. Louis, MO
- 7/2013-3/2016: Member, DBBS thesis committee for graduate student Nana Owusu-Boaitey (Mentor: Indira Mysorekar), Washington University, St. Louis, MO
- 1/2015-3/2018: Member, DBBS thesis committee for graduate student Youjin Lee (Mentor: C. Chris Weihl), Washington University, St. Louis, MO
- 1/2015-present: Chair, Center for Cardiovascular Research Seminar Committee, Washington University School of Medicine, St. Louis, MO
- 1/20/16-present: Vice Chairman, Institutional Animal Care and Use Committee (IACUC), John Cochran VA Medical Center, St. Louis, MO
- 7/2016-present: Member, Faculty search committee, Center for Cardiovascular Research, Washington University School of Medicine, St. Louis, MO
- 9/2017-8/2018: Member, DBBS thesis committee for graduate student Yedda Li (Mentor: Mark Sands), Washington University, St. Louis, MO
- 5/2017-6/30/19: Member, DBBS thesis committee for graduate student Christina Mikulka (Mentor: Mark Sands), Washington University, St. Louis, MO
- 7/2016-present: Mentor, K08 mentoring committee for Ali Javaheri, MD, PhD, Washington University, St. Louis, MO
- 12/18-present: Member, DBBS thesis committee for graduate student Percy Griffin (Mentor: Erik Musiek), Washington University, St. Louis, MO
- 12/18-present: Member, DBBS thesis committee for graduate student Brian Egan (Mentor: Kerry Kornfeld), Washington University, St. Louis, MO
- 12/2018-present: Member, Faculty search committee, Center for Reproductive Health Sciences, Washington University School of Medicine, St. Louis, MO
- 7/2019-present: Chair, Steering Committee for T32: Principles in Cardiovascular Research Training program (Mentor: Stacey Rentschler), Washington University School of Medicine, St. Louis, MO
- 10/2019-present: Member, T32-PSTP Mentoring committee for Jesus Jimenez, Washington University School of Medicine, St. Louis, MO
- 4/2020-6/2024: Special Government Employee and Standing Member, Cardiovascular Studies B (CARB) of Department of Veterans Affairs

Honors and Awards:

- 1991 **5th** position nationwide in All India Central Board of Secondary Education's Pre-Medical Examination. Placed among the **top 34** candidates nationwide selected for All India Institute of Medical Sciences, the premier institute for medical education and research in India
- 1991 Placed in the **top 25** students nationwide in **Physics Olympiad** organized by Indian Association of Physics Teachers
- 1992-1996 Adjudged **Best Student** in the subjects of - Anatomy, Physiology, Biochemistry, Pathology, Microbiology, General Surgery and Internal Medicine, in medical school
- 1996 **New Zealand High Commissioner's Medal** for being adjudged the best student in Community Medicine in medical school
- 1996 **Catherine Sorel Freeman Prize** for being adjudged the best student in Pediatrics in medical school
- 1997 **Delhi Medical Association Medal** for the **Best All-Around Student** for the Medical School Class of 1991
- 1998 **Institute Medal** conferred by the All India Institute of Medical Sciences (AIIMS), New Delhi, India for the best graduating student, 1997
- 2001 **Outstanding Clinician Award** in Outpatient Medicine. Department of Medicine, Baylor College of Medicine
- 2001 **First Prize in Basic Research Competition**, Department of Medicine Research Symposium, Baylor College of Medicine
- 2001 **First Prize** in Basic Research Category, **Astra Zeneca 7th Cardiovascular Young Investigators Forum**, Jackson Hole, WY
- 2001 **Finalist, Melvin Marcus Young Investigator Award** in Cardiovascular Science, **American Heart Association 74th Scientific Sessions**, Anaheim, CA
- 2002 **First Prize in Basic Research Competition**, Department of Medicine Research Symposium, Baylor College of Medicine
- 2003 Award for **Clinical Excellence as a Fellow**, from Section of Cardiology, Department of Medicine, Baylor College of Medicine
- 2003 **American College of Cardiology / Merck Fellowship Research Award 2003**, American College of Cardiology 52nd Annual Scientific Sessions, Chicago, IL
- 2004 Award for the **Best Fellow in Clinical Research** at Baylor College of Medicine
- 2004 **Richard Van Reet Award** for the **Best All-Around Fellow in Cardiology** at Baylor College of Medicine
- 2006 **First Prize** in Faculty Basic Research Category, **Northwestern Cardiovascular Young Investigators Forum**, Chicago, IL
- 2006 **Finalist, Arnold and Louis Katz Basic Science Research Prize**, American Heart Association, 79th Scientific Sessions, Chicago, IL
- 2007 **Finalist, Jay N. Cohn Young Investigator Award in Basic Cardiovascular Sciences**, Heart Failure Society of America Annual Scientific Sessions, Washington, DC
- 2007 **Jeremiah Stamler Distinguished Young Investigator Award** in the junior faculty basic science category in the Northwestern Cardiovascular Young Investigator's Forum, Chicago, IL
- 2014 Graduate of the **Academic Medical Leadership Program** for Physicians and Scientists, Washington University School of Medicine, Olin School of Business and BJC Health Care
- 2015 Member, **Digital Communications Committee**, Heart Failure Society of America
- 2016 **Distinguished Investigator Award**, St. Louis Veterans Affairs Medical Center, St. Louis, MO
- 2018-now Member, **Research Fellowship Awards Committee**, American College of Cardiology
- 2018-now Member, **Research Committee**, Heart Failure Society of America

Curriculum Vitae

Abhinav Diwan, MBBS

- 2018 Inducted into **The American Society for Clinical Investigation (ASCI)**.
- 2020 Inducted into **Association of University Cardiologists**
- 2020 Inducted as National Council Affiliate member of the Autophagy, Inflammation and Metabolism **AIM Center** at University of New Mexico, Albuquerque

Editorial Responsibilities:

Ad-hoc Reviewer:

- 1) Aging Cell
- 2) Circulation
- 3) Circulation Research
- 4) JCI
- 5) Circulation - Heart Failure
- 6) Circulation - Arrhythmia and Electrophysiology
- 7) Journal of Biological Chemistry
- 8) Molecular and Cellular Biology
- 9) Journal of Cell Biology
- 10) Autophagy
- 11) American Journal of Physiology-Heart
- 12) Molecular Pharmacology
- 13) Journal of Molecular and Cellular Cardiology
- 14) American Journal of Cardiology
- 15) Cellular and Molecular Gastroenterology
- 16) Cardiovascular Research
- 17) Anesthesiology
- 18) Nature Medicine
- 19) PLOS Biology
- 20) Nature Communications
- 21) Science Signaling

National Scientific Panels:

Peer Review Study Section Member:

- 2008-2015: Cardiac Biology Study Group, American Heart Association
- 2013: 2014 NSF Graduate Research Fellowship Program Panel on Cell Biology
- 2012-2015: Research Grant Review Panel, Alzheimer's Association
- 2013-2014: US-Israel Binational Science Foundation Review Panel
- 2015-2016: Member, CDMRP review panel for Heart Disease, Department of Defense
- 2015-2017: Expert panel member for Molecular and Cellular Biology, Research Foundation Flanders, Belgium
- 2015-2016: Member, Department of Veterans Affairs, Cardiovascular Disease (CARA) study section
- 2017-2018: Member, ZRG1-CVRS-L Special Emphasis Panel on Cardiovascular and Respiratory AREA mechanism NIH
- 2018: Member, Special Emphasis panel HLBP1 workgroup for the NIH.
- 2018: Reviewer for Diabetes UK
- 2018: Member, ZRG1 CVRS-L (02) Special Emphasis Panel on Cardiovascular Sciences
- 2018: Member, CDMRP review panel for Heart Disease, Department of Defense
- 2019: Ad-hoc member, Clinical and Integrative Cardiovascular Sciences [CICS] NIH study Section
- 2019: Chair, Transformational Project Award review committee for the American Heart

Curriculum Vitae

Abhinav Diwan, MBBS

- Association
- 2019: Reviewer, European Research Council, Starting Grant 2019 panel
- 2019: Ad-hoc member, NHLBI Institutional Training Mechanism [NITM] NIH study Section
- 2019-2020 Member, Special Emphasis Panel (SEP) ZRG1 CVRS-L 02 M, NIH
- 2019: Reviewer, Austrian Academy of Sciences, Doctoral Fellowship Program
- 2015-2019 Member, Department of Veterans Affairs Cardiovascular Disease Study section
- 2019: Reviewer, Swiss National Science Foundation Grants program
- 2020: Co-chair, Transformational Project Award review committee for the American Heart Association
- 2020-2024 Member, ZRD1-CARB

Abstract Grader:

2013- present: Heart Failure Society of America Annual Scientific Meeting, American Heart Association Annual Scientific Sessions, BCVS AHA annual scientific meeting

Others:

- 1) Moderator, Session on *Protection of Ischemic Myocardium VI* at the American Heart Association Annual Scientific Sessions 2012, Nov. 3-7 in Los Angeles, CA
- 2) Moderator, Session on *Autophagy, Mitochondria and Protein Homeostasis* at the American Heart Association Annual Scientific Sessions 2013, Nov. 16-20 in Dallas, TX
- 3) Moderator, eAbstract Session on Cellular Biology and Function at the American Heart Association Annual Scientific Sessions 2015, Nov. 8-13 in Orlando, FL

Professional Societies and Organizations:

- 2006 Fellow of American College of Cardiology
- 2006 Fellow of American Society of Echocardiography
- 2011 Fellow of American Heart Association
- 2004-present: Member, Heart Failure Society of America, Association for Advancement of Science, American Heart Association, American College of Cardiology
- 2015-2018: Member, Heart Failure Society of America (HFSA) Digital Communications Committee
- 2018-present: Member, HFSA Research Committee
- 2018-present: Member, American College of Cardiology's Research Awards Committee
- 2018: Inducted into the American Society of Clinical Investigation
- 2020: Inducted into the Association of University Cardiologists

Major Invited Professorships and Lectureships:

1. Molecular Mechanisms of Heart Failure. Grand Rounds, Division of Cardiology, *University of Arkansas Medical Center*, September 2003
2. Molecular Mechanisms of Heart Failure. Grand Rounds, Department of Internal Medicine, *University of Cincinnati*, November 2005
3. Noninvasive Assessment of Left Ventricular Filling Pressures in Guiding Heart Failure Therapy. Echocardiography Conference, Division of Cardiology, *University of Pennsylvania*, Philadelphia, January 2006
4. Role of Autophagic Flux in Cardiac Myocyte Viability. Cardiology Research Conference, *University of Texas Southwestern Medical Center*, Dallas, January 2010

Curriculum Vitae

Abhinav Diwan, MBBS

5. Enhancing Beneficial Autophagy to Prevent Cardiac Myocyte Death in Ischemia-Reperfusion Injury. Cardiovascular Research Conference, *University of Louisville*, Louisville, January 2012
6. Enhancing Autophagy for Cardioprotection - More is Better! Plenary talk at the *St. Louis VA Research Day*, July 2012
7. Targeting Lysosome Function to Manage Cardiac Ischemia-Reperfusion Injury. *Cardiovascular Research Day*, Division of Cardiology at Washington University, December 2012
8. Factors Causing Myocardial Dysfunction - From Nature to Nurture. Invited talk at the *Indian Association of Cardiothoracic Surgeons Annual Scientific Sessions*, Mumbai, India, February 2013
9. Transcription Factor EB Coordinates Mitochondrial Autophagy with Biogenesis. Invited short talk at the plenary session of the *Keystone Symposium on Mitochondria, Metabolism and Myocardial Function - Basic Advances to Translational Studies*, Keystone, CO, February 2013
10. Transcriptional Regulation of Lysosome Biogenesis in Cell Death. *Cell Biology Fall Seminar Series*, Department of Cell Biology and Physiology, Washington University, September 2013
11. Enhancing Lysosome Biogenesis to Attenuate Amyloid Plaque Pathogenesis. Invited talk at the *Zing Conference on Lysosomes and Lysosome Related Organelles*, Nerja, Spain, February 2014
12. Transcriptional regulation of the lysosome machinery in disease states. Invited presentation at the *James T. Willerson MD Cardiovascular Seminar*. Texas Heart Institute, March 2015
13. Intermittent fasting and activation of transcription factor EB (TFEB) ameliorate established protein-aggregate-induced cardiomyopathy triggered by the R120G mutant α B-crystallin protein. Invited presentation at the *Society for Heart and Vascular Metabolism*, Tarrytown, NY 2015
14. Harnessing the autophagy-lysosome machinery in cardiac myocytes for disease prevention and therapy. Invited talk at the *American Society of Cell Biology Symposium on 'Autophagy in disease and survival'*. San Diego, December 2015
15. Simple nutrients can bypass lysosomal insufficiency under starvation stress. Invited talk at the *Zing Conference on Lysosome Biology*. Cambridge, UK, July 2016
16. Cardiomyopathy. Series on Molecular Medicine and the Heart. *Invited Physician-scientist speaker at the Department of Cell Biology and Molecular Medicine and the Cardiovascular Research Institute at Rutgers*, The State University of New Jersey, November 2016
17. Harnessing the Autophagy-Lysosome Machinery in Cardiac Myocyte Organelle and Protein Quality Control. *Invited speaker at the American Heart Association Basic Cardiovascular Sciences 2017 Scientific Sessions: Pathways to Cardiovascular Therapeutics*, Portland, OR, July 2017
18. Peripheral Monocytes Migrate to the Amyloid Plaques in a Mouse Model of Alzheimer's Disease. *Invited presentation at the Cell Symposium: Neuro-Immune Axis: Reciprocal Regulation in Development, Health, & Disease*, Sitges, Spain, September 2017.
19. Harnessing the Benefits of Intermittent Fasting by Targeting Lysosomes. *Invited presentation at the Meeting on Preconditioning in Biology and Medicine: Adaptive Responses/ Preconditioning*. University of Massachusetts at Amherst, MA, April 2019
20. TRAF2: A Novel Mitophagy Mediator in the Heart. *Invited presentation at the 5th Wuhan International Conference on Liver and Cardiovascular Science*, Wuhan, China, April 2019
21. Targeting Lysosomal Pathways for Proteostasis and Cell Survival. *Invited speaker at the American Heart Association Basic Cardiovascular Sciences 2019 Scientific Sessions: Integrative Approaches to Complex Cardiovascular Diseases*, Boston, MA, July 2019
22. Macrophage lysosome function in myocardial infarction: Novel insights from an 'omics' approach. Invited speaker at *University of Alabama, Birmingham's Comprehensive Cardiovascular Center 8th Annual Symposium- New Horizons in Cardiovascular Disease: A Focus on Precision and Personalized Medicine*. Birmingham, AL, Sept 20th 2019.
23. Harnessing the Lysosome Machinery to Prevent and Treat Cardiovascular Disease. *Distinguished Invited Speaker, Division of Basic Biomedical Sciences*, University of South Dakota, Vermillion. October 3rd, 2019.

Curriculum Vitae

Abhinav Diwan, MBBS

24. Harnessing Lysosome Biogenesis for Cellular protection. *Invited presentation at Northern Ontario School of Medicine*, Ontario, Canada; October 8th, 2019
25. *How to write a grant*: in the course titled *How to Become a Cardiovascular Investigator*, led by Course Director, Dr. Fuster and Course Co-director, Dr. Harrington and the American College of Cardiology, Washington DC Nov 2nd 2019.
26. Mitophagy and Cardioprotection: Mitochondria as Mediators and Therapeutic Targets in Heart Failure. Invited presentation at *Annual Scientific Sessions of the American Heart Association*, Philadelphia, PA, Nov 17th, 2019.
27. Diabetes and cardiomyopathy: I see smoke, where is the fire? Invited presentation at *Medicine Grand Rounds, Saint Louis University*, MO; February 2020.
28. The Autophagy-Lysosome Pathway as a Therapeutic Target for Aging-related Diseases. Invited presentation at *Cardiology Grand Rounds*, John Cochran VA Medical Center, MO; March 2020.
29. Alternate-day fasting for healthy cardiovascular aging. Invited speaker at the *European Congress of Cardiology Congress 2020*, Amsterdam, August 2020

Consulting Relationships:

Serve as consultant to ERT systems for echocardiography in clinical trails

Research Support:

Active (all governmental):

- 1) 2R01HL107594-06 (Diwan, PI) 07/01/2011 – 04/30/2021
NHLBI \$253,637/year
Innate Immunity Pathways in Autophagy Signaling in Cardiac Myocytes
This grant will define the role of TRAF2-mediated autophagy signaling in organelle homeostasis and cardiac myocyte survival, as well as in preventing cardiomyocyte death with ischemia-reperfusion injury.
- 2) I01BX004235 (Diwan, PI) 4/1/2018-3/31/2022
Department of Veterans Administration Research Service-BLRD
\$165,000 (non-salary) + \$48,498 (equipment)
Targeting Macrophage Lysosome Biogenesis Program in Cardiomyopathy and Heart Failure.
This grant will examine a strategy of macrophage-targeted overexpression of TFEB to attenuate myocardial inflammation and cardiomyocyte death in ischemia-reperfusion injury.
- 3) 1 R01 NS094692-01 (Lee, Diwan; co-PIs) 5/1/2017-4/30/2022
NINDS \$349,610
Targeting TFEB to Microglia and Monocytes to Enhance Amyloid Degradation
This proposal will determine the efficacy of TFEB targeted to microglia and monocytes in stimulating amyloid degradation to attenuate pathologic changes in Alzheimer's disease.
- 4) R01HL143431-01 (Diwan, PI) 07/01/2018-06/30/22
NHLBI \$421,000
Maternal obesity and cardiometabolic health in the offspring
This grant examines the mechanisms for the transgenerational inheritance of mitochondrial abnormalities and cardiac pathology from moms fed a high fat and high sucrose diet.
- 5) ICTS, Washington University (Diwan, PI) 04/1/19-03/31/20
Washington University School of Medicine \$7,000

Curriculum Vitae

Abhinav Diwan, MBBS

Enhancing Protein Dis-Aggregation in Alzheimer's Disease and Cardiomyopathy

This grant supports the generation of transgenic mice expressing dis-aggregases.

- 6) R01 HL149159 (Young, M: U of Alabama, Birmingham; Diwan, Co-I) 09/01/2019-06/30/2024
NHLBI \$38,164
Metabolic Rhythm Alterations as a Cause for Obesity Cardiomyopathy
- 7) 1I01 BX005065-01 (P1: Mann, co-I Diwan) 4/1/2020-3/31/2023 1.0 calendar months
Department of Veterans Affairs \$165,000
Autophagy in Myocardial Recovery and Remission
This grant examines autophagic flux and its determinants in recovery from heart failure.

Training Grant:

- 1) 5T32HL007081-45 (Diwan, PI): 07/01/1975-5/31/2021
NHLBI \$433,860
Principles in Cardiovascular Research Training program. Through this program, M.D., Ph.D. and M.D./Ph.D. postdoctoral trainees are mentored by established investigators who are actively involved in high-impact cutting edge cardiovascular research.

Completed Research Support:

- 1) 1I01BX001969 (PI: Diwan) 10/01/13 – 3/31/18
Department of Veterans Administration Research Service-BLRD
\$150,000 (non-salary) + \$42,468 (equipment) /year
Enhancing Beneficial Autophagy to Prevent Heart Failure
This grant will examine a strategy of cardiomyocyte specific expression of TFEB to attenuate cardiomyocyte death in ischemia-reperfusion injury.
- 2) CH-MI-II-2016-539 (PI: Diwan) 2/1/2016-1/31/2018
Children's Discovery Institute \$86,000/year
Washington University School of Medicine
Metabolomics-guided Therapies for Lysosome Storage Diseases
The goal of this project is to use a worm model to obtain metabolomic insights that would help design nutritional modulation therapies for lysosome storage diseases.
- 3) Institute of Clinical and Translational Sciences (Diwan, PI) 04/1/18-03/31/19
Washington University School of Medicine \$5000
Targeting TFE3 to determine its Cell-type Specific Role in Lysosome Biogenesis
This grant supports the generation of TFE3 floxed mouse.
- 4) NHLBI R01 (PI: Diwan) 07/2011 – 06/2016
Role of Autophagic Flux in Cardiac Myocyte Viability
This grant proposal examines the role of impaired flux through the autophagic pathway as a mechanism for development of hypertrophic cardiomyopathy in Danon disease and causing cardiomyocyte cell death in ischemia reperfusion injury.
- 5) VA MERIT grant BLRD I01 BX000448-01 (PI: Diwan) 04/01/09 – 03/31/12
Veterans Administration Research Service
Targeting Cell Death to Prevent Heart Failure
- 2) New Investigator Research Grant (PI: Diwan) 9/01/12 – 8/31/14

Curriculum Vitae

Abhinav Diwan, MBBS

Alzheimer's Association

\$100,000 over 2 years

Enhancing Lysosome Biogenesis to Prevent Amyloid Plaque Pathogenesis

- 3) R21 (PI: Lee, JM; co-I: Diwan) 10/01/13 – 4/30/16
NINDS
\$275,000 over 2 years
Enhancing Lysosome Biogenesis to Prevent Amyloid Plaque Pathogenesis
This proposal seeks to employ TFEB-mediated lysosomal biogenesis to promote complete APP proteolysis in astrocytes as a strategy to reduce amyloid peptide levels in the brain parenchyma and prevent amyloid plaque deposits.
- 4) Scientist Development Grant 0735135N (PI: Diwan) 07/01/07 – 06/30/11
American Heart Association
Targeting Apoptosis to Improve Outcomes in Myocardial Infarction and Heart Failure
- 5) Pilot and Feasibility Grant (PI: Diwan) 12/01/11 – 11/30/13
Diabetes Research and Training Center (NIDDK), Washington University
Intermittent Fasting as a Strategy to Treat Diabetes
- 6) Merck Research Fellowship Grant (PI: Diwan) 07/01/03 – 06/30/04
American College of Cardiology
Mentors: William A. Zoghbi, MD and Douglas L. Mann, MD
Characteristics of Cardiac Fibroblasts in Human Hibernating Myocardium: Implications for Recovery

Patents:

(Co-inventor) U.S. 371 National Patent Application Serial No. 16/074,023

Composition and Methods for the Treatment of Atherosclerosis and Hepatosteatosiis and Other Diseases

Mentor Roles:

Active

- 1) Ali Javaheri, MD, PhD: I am the primary mentor for K08 grant 1K08HL138262 funded from the NHLBI: 7/1/17-6/30/22. Ali was recently appointed as Assistant Professor on the tenure track in the Department of Medicine.
- 2) Jeremie Ferey, PhD: post-doctoral trainee:
 - a) I am Jeremie's mentor on his NIH F32 grant proposal (5F32HL14084802) titled: Cardiac and Mitochondrial Deficiencies Across Three Generations Arising From Maternal Obesity; funded from 10/1/17-9/30/2020
 - b) I am Jeremie's mentor on his Childrens' Discovery Institute Proposal (CHMIF2019770) titled: Targeted Interventions to Reverse the Cardiac Pathology Induced by Maternal Nutrient Excess: 7/1/18-6/30/2020
- 3) Kartik Mani, MD: Staff Physician at John Cochran VAMC and Assistant Professor of Medicine at Washington University; post-doctoral trainee in the Diwan Laboratory. I am the primary mentor on

Curriculum Vitae

Abhinav Diwan, MBBS

his seed grant titled: Role of Autophagy Lysosomal Pathway in Proteotoxic Cardiomyopathy, from the John Cochran VAMC 10/1/2017-9/30/2019

- 4) Moydul Islam. Graduate student in Chemistry at Washington University School of Medicine. He is pursuing his thesis studies titled: Protein Aggregation in Cardiac Pathology and Physiology under my mentorship from 1/1/19.
- 5) David Rawnsley, MD, PhD: Cardiology fellow in training under the Physician Scientist Training Pathway at Washington University. I am his primary mentor in the physician-scientist training pathway from 7/1/19-6/30/2021. David is supported by T32 HL007081.
- 6) Amy Clark, DO. Instructor in Pediatrics, in the Division of Endocrinology and Diabetes. I am co-mentoring Amy together with Mara Remedi towards her K08 application focused on understanding how metabolic stress affects pancreatic islet biology in pathogenesis and progression of type I diabetes. 10/1/19-current
- 7) Julia Cao. Undergraduate at Washington University School of Arts and Sciences. I am her mentor through the Bio-200 program.

Past mentees (with funding support):

- 1) Daniel 'Kai-Chun' Yang, MD: Mentors in Medicine Awardee, Department of Medicine, Washington University School of Medicine: 11/2011-12/2012. Current position: Assistant Professor in Cardiovascular Diseases at University of Washington, Seattle, WA; funded by VA Career Development Award (CDA2) BX004642-01: Dissecting the mechanism of how dominant negative MYH7 mutations lead to genetic cardiomyopathies.
- 2) Ali Javaheri, MD, PhD, Principles of Cardiovascular Disease training grant (T32) awardee, 1/1/2016-current: Role of macrophage lysosome biogenesis program in development of post-infarction cardiomyopathy. Current position: K08 awardee under my mentorship as above.
- 3) Haedar Abuirqeba, PhD: Cardiovascular Biology Training Grant awardee, 8/2013-6/2014. Role of Transcriptional Repressors of the Lysosome Machinery in Cell Death. Current position: Laboratory supervisor, Department of Radiology at Weill Cornell Medical School.
- 4) Alexander Boyko: 5/2014-8/2014: Regulation of Mitochondrial Quality with Starvation Stress. Funded through uSTAR Summer Scholars Program, Washington University, for rising Sophomores. Current position: Medical Student at Boston University.
- 5) Rohan Khopar: Funded through uSTAR Summer Scholars Program, Washington University, for rising Sophomores. 5/2015-8/2015: Role of lysosomes During Starvation and Refeeding. Current position: Masters student at Washington University.
- 6) Clara (Jeong-Min) Oh: Summer Undergraduate Research Fellowship, Washington University. 5/2015-8/2015: Regulation of HLH30 Signaling by Cellular Phosphatases. Current position: Medical Student at University of Missouri, Columbia
- 7) Deepthi Mosali, MD. Research Fund (University of Cincinnati): 7/2005-8/2006 Noninvasive Echocardiographic Evaluation of Left Ventricular Filling Pressures and Wall Stress in Minimally Symptomatic Patients with Heart Failure: Implications for Left Ventricular Remodeling. Current position: Cardiologist in private practice at Dayton, OH

Past (others):

- 1) Premed student: Samuel Ang. Resident in Anesthesiology at NYU medical school

Curriculum Vitae

Abhinav Diwan, MBBS

- 2) Premed student: Sarah R. Foyil. Orthopedics resident at Loyola University Chicago Stricht School of Medicine.
- 3) Premed student: Rebecca J. Godar. Currently employed as Research Administrator, Department of Pediatrics, University of Minnesota, Minneapolis
- 4) YouJin Lee: DBBS Molecular and Cellular Biology program at Washington University.
- 5) Jeong Min (Clara) Oh: Undergraduate through the BioMed 500 and uSTAR program
- 6) Hokyung Keum: Undergraduate through the BioMed 200 program
- 7) Alexander Boyko: Undergraduate through the BioMed 500 and uSTAR program
- 8) Rohan Khopkar: Undergraduate through the BioMed 500 and uSTAR program
- 9) Alex Shaver, Undergraduate in the lab. Alex Shaver: Summer undergraduate trainee. BS (Biology) from University of Alabama. 5/2016-7/2018. Current position: Graduate student in pharmacology and molecular sciences at Johns Hopkins University.
- 10) Akhil Kaushik, Undergraduate in the lab through Amgen Scholars program
- 11) Smrithi Mani: Undergraduate through the BioMed 500 program

Mentee Awards and Honors:

- a. Ali Javaheri, MD PhD: Jay Cohn New Investigator Integrative Physiology/Clinical Award, Heart Failure Society of America, Orlando FL, 2016
- b. Ali Javaheri, MD PhD: First place Award in Fellows Basic Science Category, 12th Annual Northwestern Cardiovascular Young Investigators' Forum, Chicago IL, 2016
- c. Ali Javaheri, MD PhD: Second place Award in Faculty Basic Science Category, 14th Annual Northwestern Cardiovascular Young Investigators' Forum, Chicago IL, 2018
- d. Jeremie Ferey, PhD: Second Place Award in Young Investigator Awards Competition of the American College of Cardiology, Annual Scientific Sessions, New Orleans, LA 2019
- e. Kartik Mani, MBBS: Next Generation Investigator Award, Research and Development Service, John Cochran VA Medical Center, St. Louis MO 2019
- f. Ali Javaheri, MD PhD: American Society of Clinical Investigation's 2019 Young Physician-Scientist Awardee, Chicago IL, 2019
