

OCTOBER 15, 2024

EDUCATION DAY 2024

The Future of Healthcare Education

Washington University School of Medicine

ACADEMY OF EDUCATORS **OFFICE OF EDUCATION**

academyofeducators.wustl.edu

 @WashUAcadEd

ADAM RODMAN, MD, MPH, FACP

**Hospitalist, Beth Israel Deaconess Medical Center
Assistant Professor, Harvard Medical School
Co-Director, iMED Initiative at BIDMC**

Adam Rodman, MD, MPH, FACP is a general internist and medical educator at Beth Israel Deaconess Medical Center and an assistant professor at Harvard Medical School, where he leads the task force for integration of AI into the medical school curriculum. He is also an associate editor at NEJM AI. His research focuses on medical education, clinical reasoning, integration of digital technologies, and human-computer interaction, especially with AI. His first book is entitled "Short Cuts: Medicine," and he is the host of the American College of Physicians podcast Bedside Rounds.

Adam completed his residency in internal medicine at Oregon Health and Science University in Portland, OR, and his fellowship in global health at Beth Israel Deaconess Medical Center while practicing in Molepolole, Botswana. He lives in Boston with his wife and two young sons.

Keynote Address: Large Language Models for the Medical Educator: What's Hype, What's Here, and What's Next

Description: In this keynote address, attendees will review the evidence on how large language models are changing how students, residents, and attendings learn; will learn practical frameworks to use LLMs in their own educational practice; and will be exposed to innovations in medical education coming in the next several years.

AGENDA

- 12:00 - 12:15pm** **REGISTRATION & LUNCH PICK-UP**
EPNEC Lobby, 1st Floor
- 12:15 - 12:20pm** **WELCOME :: Allyson Zazulia, MD & Eileen Lee, MD**
Education Day Committee Chair & Vice Chair
EPNEC Auditorium, 1st Floor
- 12:20 - 1:00pm** **ORAL ABSTRACTS**
EPNEC Auditorium, 1st Floor
- 1:00 - 2:00pm** **KEYNOTE SPEAKER :: Adam Rodman, MD, MPH, FACP**
EPNEC Auditorium, 1st Floor
- 2:10 - 3:10pm** **BREAKOUT 1**
- Beyond the Basics: Generative AI for Revolutionary Medical Education/ EPNEC Auditorium
 - Debriefing the Unthinkable: Approaching Emotionally Activating Topics in Simulation/ Great Room A, 1st Floor
 - Tips & Tricks to Improve your Written Assessment Comments/ Great Room B, 1st Floor
- 3:15 - 3:35pm** **PM BREAK**
EPNEC Lobby, 1st Floor
- 3:35 - 4:35pm** **BREAKOUT 2**
- Flourishing-Focused Advising: Harnessing Milestones 2.0 Well-Being Assessments to Cultivate Trainee Thriving/ EPNEC Auditorium
 - Communicating Impact through the CTIR and Executive Summary/ Great Room A, 1st Floor
 - Gamification of Bedside Teaching using Charcot Mobile Application - A Hands-on Workshop/ Great Room B, 1st Floor
- 4:45 - 4:50pm** **DIRECTOR'S ADDRESS :: Abby Spencer, MD, MS, FACP**
Director, Academy of Educators
EPNEC Auditorium, 1st Floor
- 4:50 - 5:05pm** **NEW MEMBER INDUCTION :: Ian Hagemann, MD, PhD & Anup Shetty, MD**
Membership Committee Chair & Vice Chair
EPNEC Auditorium, 1st Floor
- 5:05 - 5:20pm** **AWARDS CEREMONY :: Megan Wren, MD & Suzie Thibodeaux, MD, PhD**
Awards Committee Chair & Past Chair
EPNEC Auditorium, 1st Floor
- 5:20 - 6:00pm** **POSTERS/ RECEPTION/ NETWORKING**
EPNEC Lobby, 1st Floor

ORAL ABSTRACTS

Gayathri Krishnan, MD

Innovative Leadership Development Curriculum for Women Trainees in the Department of Medicine: A FWIM Initiative

Description: The FWIM Trainee Leadership Development Program is an 8-month certificate pathway for residents, chief residents and fellows in the Department of Medicine that is aimed at instilling trainees with critical leadership skills needed to successfully advance in medicine. The curriculum covers topics such as effective communication skills, negotiation strategies, creating individual career development plans, curating a professional network, and leveraging one's strengths. Trainees get faculty mentorship through the program as well. Gayathri Krishnan, MD, MHPE is the Director of the FWIM TLDP and will share data on program outcomes collected over the last two years.

Alberto Maria Sobrero, BSc

Teaching Shared-Decision Making during Telehealth: An Experiential Learning Intervention for Rheumatology Fellows in Training

Description: This presentation highlights the development and evaluation of an educational intervention aimed at enhancing telehealth (TH) and shared decision-making (SDM) skills among rheumatology fellows-in-training (FITs). FITs completed a pre-intervention TH encounter, an online module, a simulated patient encounter focused on SDM, and a post-intervention encounter. Results showed significant improvements in FITs' confidence in SDM skills during TH and improvement in FITs' performance of general TH skills. These findings suggest that targeted educational interventions can effectively prepare FITs for patient-centered care in TH settings.

Jorge Zarate Rodriguez, MD

Promoting Surgical Resident Well-Being through Therapist-facilitated Discussion Groups: A Quantitative and Qualitative Analysis

Description: To promote the well-being of surgery and OBGYN residents, the GME Wellness Program began offering confidential therapy-led discussion groups to provide residents with a safe space to discuss common issues and create community. This is a quantitative and qualitative survey-based study aiming to understand residents' experience participating in these groups. Overall, the groups improved resident wellness and fostered relatedness; residents found the opportunity to discuss shared struggles the most valuable aspect of the discussion groups.

BREAKOUT 1: 2:10PM - 3:10PM

Beyond the Basics: Generative AI for Revolutionary Medical Education

Presenter: Adam Rodman, MD, MPH, FACP

Location: EPNEC, 1st Floor, Auditorium

Description: Attendees will learn how to get the most out of large language models (LLMs) for medical education by learning the principles of prompt design and more advanced strategies and by completing several stages of "challenges."

Debriefing the Unthinkable: Approaching Emotionally Activating Topics in Simulation

Presenters: Ernesto Romo, MD & Alex Croft, MD

Location: EPNEC, 1st Floor, Great Room A

Description: During this session, presenters will describe a novel simulation technique that can be used for simulating emotionally challenging topics while providing a psychologically safe environment. Following this session, participants should be able to: 1. Identify inherently emotionally activating topics in education (inATEs). 2. Describe how to debrief emotionally challenging topics in a manner that preserves psychological safety. 3. Demonstrate the ability to create simulation sessions using the Phased Separation of Emotions and Practice in Simulation (PSEPS) method.

Tips & Tricks to Improve your Written Assessment Comments

Presenters: Lisa Zickuhr, MD, MHPE & Marty Kerrigan, MD

Location: EPNEC, 1st Floor, Great Room B

Description: Well-written comments on assessment forms convey important feedback to trainees and relay essential data to competency committees, yet many assessors find it challenging to write meaningful comments that are specific, insightful, and direct learners' growth. This workshop will review the characteristics of meaningful feedback, share best practices for writing assessment comments, and provide opportunities for attendees to practice their skills.

BREAKOUT 2: 3:35PM - 4:35PM

Flourishing-Focused Advising: Harnessing Milestones 2.0 Well-Being Assessments to Cultivate Trainee Thriving

Presenters: David Vermette, MD, MBA

Location: EPNEC, 1st Floor, Auditorium

Description: During this session, we will introduce attendees to the "Flourishing-Focused Advising" framework, explore methods of engaging trainees in conversations about the systemic factors affecting their well-being, and introduce a structured technique to assess and develop competence in trainee well-being. Following this session, participants should be able to: 1. Describe the challenges of assessing the new harmonized Milestone 2.0 on well-being and name two validated instruments to assess domains of trainee flourishing (PROF). 2. Practice a technique for flourishing-focused advising that can develop competence in well-being domains (PROF, ICS). 3. Practice assessing trainee competence in the Internal Medicine "PROF4: Knowledge of Systemic and Individual Factors of Well-Being" milestone through observation of standardized advising sessions (PROF).

Communicating Impact through the CTIR and Executive Summary

Presenters: Michelle Miller-Thomas, MD

Location: EPNEC, 1st Floor, Great Room A

Description: During this session, the discussion will focus on helping Clinician Track faculty seeking promotion on the Educator Pathway understand how to express their impact as educators within the Executive Summary and Clinician Track Impact Report (CTIR). Following this session, participants should be able to: 1. Describe the role of the Executive Summary and CTIR in supporting faculty academic promotion. 2. Write an effective Executive Summary and CTIR statement to describe the faculty member's impact as an educator.

Gamification of Bedside Teaching using Charcot Mobile Application - A Hands-on Workshop

Presenter: Saurav Das, MD

Location: EPNEC, 1st Floor, Great Room B

Description: During this session, participants will be able to install a mobile application on their phones and participate in groups to discuss two simulated patient cases. The application will promote healthy competition among the groups to capture more teaching opportunities within these two cases. Following this session, participants should be able to: 1. Navigate a mobile application intended to gamify bedside teaching. 2. Identify potential applications of a mobile application promoting bedside teaching during their clinical practice.

ACADEMY OF EDUCATORS :: INDUCTEES

Ellen Binder, MD
Professor of
Medicine

Kathleen Byrnes, MD
Associate Professor of
Pathology & Immunology

Kelly Currie, MD
Assistant Professor of
Surgery

Kate Dunsky, MD
Associate Professor of
Otolaryngology

Seth Goldberg, MD
Associate Professor of
Medicine

Sara Greer, MD
Assistant Professor of
Pediatrics

Erin Hickey, MD
Assistant Professor of
Pediatrics

ACADEMY OF EDUCATORS :: INDUCTEES

Celina Jacobi, MD
Assistant Professor of
Psychiatry

Amanda Mack, OTD, OTR/L, CLC
Assistant Professor of
Occupational Therapy

Sydney Nykiel-Bailey, DO
Associate Professor of
Anesthesiology

J. Westley Ohman, MD
Associate Professor of
Surgery

Dorina Kallogjeri, MD, MPH
Associate Professor of
Otolaryngology

Ali Mian, MD
Assistant Professor of
Radiology

Frank O'Brien, MD
Associate Professor of
Medicine

ACADEMY OF EDUCATORS :: INDUCTEES

Kerri Ohman, MD
Assistant Professor of
Surgery

Jeramia Ory, PhD
Assistant Professor of
Biochemistry & Molecular Biophysics

Kristen Prufrock, PhD
Assistant Professor of
Neuroscience

Shuddhadeb Ray, MD, MPHS
Assistant Professor of
Surgery

Kaytlin Reedy-Rogier, MSW
Instructor in
Medicine

Casey Reimer, PhD
Assistant Professor of
Otolaryngology

Amy Riek, MD
Associate Professor of
Medicine

ACADEMY OF EDUCATORS :: INDUCTEES

Matthew Rosengart, MD, MPH
Professor of Surgery

Alison Snyder-Warwick, MD
Associate Professor of
Surgery

David Vermette, MD, MBA
Assistant Professor of
Medicine & Pediatrics

Ashley Weinhold, MD
Assistant Professor of
Anesthesiology

John Schneider, MD
Associate Professor of
Otolaryngology

Brian Stotter, MD
Assistant Professor of
Pediatrics

Jason Wagner, MD
Associate Professor of
Emergency Medicine

ACADEMY OF EDUCATORS :: INDUCTEES

Susan Wiltrakis, MD
Assistant Professor of
Pediatrics

Darcy Wooten, MD
Professor of
Medicine

Joanna Yang, MD, MPH
Associate Professor of
Radiation Oncology

Lisa Zickuhr, MD, MHPE
Assistant Professor of
Medicine

THANK YOU!

MEMBERSHIP COMMITTEE:

- Jacob AuBuchon, MD
- Amy Bauernfeind, PhD
- Tamara Burlis, PT, DPT, CCS
- Dominique Cosco, MD, FACP
- Beth Crowner, PT, DPT, NCS, MPPA
- Brian Edelson, MD, PhD

- Quinn Tyminski, OTD, OTR/L, BCMH
- Saiama Waqar, MD, MSCI
- Paul Wise, MD
- Katie Wolfe, MD, MEd
- Megan Wren, MD

AWARD RECIPIENTS: RISING STAR

The Rising Star Award, established in 2021, recognizes current Washington University faculty members with less than six years of service as faculty in an academic teaching setting who show exceptional promise as educators through contributions in one or more domains of educational service, leadership or scholarship. Congratulations to the following recipients!

Kelly Currie, MD

Assistant Professor of Surgery

“Given Dr. Currie’s extraordinary accomplishments, dedication to education, and unwavering commitment to advancing healthcare professions, it is with great enthusiasm that I wholeheartedly endorse her nomination for the Rising Star Award. Her resolute efforts have had a profound effect on the Plastic Surgery Residency Program and the larger medical community. Dr. Currie’s innovative initiatives, leadership, and outstanding teaching abilities make her an ideal candidate to receive this prestigious recognition.”

Tyler Fraum, MD

Assistant Professor of Radiology

“Dr. Fraum is an individual of many talents. Somehow, he manages to channel them into educational efforts in many arenas, all with great acclaim and appreciation. I think he exemplifies the values celebrated by the Rising Star Award.”

Peter Kang, MD

Associate Professor of Neurology

“Dr. Kang’s growth as Residency Director is a testament to his exceptional ability to listen attentively and implement rational advancements that enhance the culture and educational environment within the Adult Neurology Residency Program. His outstanding contributions and achievements make him a deserving candidate for recognition. His dedication, leadership, and commitment to improving medical education make him an exemplary candidate for this esteemed honor.”

AWARD RECIPIENTS: EXEMPLARY EDUCATOR

The Exemplary Educator Award, established in 2022, recognizes current Washington University faculty members with at least six years of service as faculty in an academic teaching setting who are actively building legacies as educators through contributions in one or more domains of education and mentorship. Congratulations to the following recipients!

Brendan O'Connor, MD

Associate Professor of Psychiatry

"He has excelled in teaching residents and medical students having consistently been graded very highly by learners. He also has held several key administrative roles in education both at the school and department level. As an administrator/leader he has introduced multiple curricular changes that have been well thought out and implemented. He is well recognized as a very organized person who thinks through the issues and develops a reasonable plan of action. He has made contributions to education in multiple areas. I believe he is an excellent example of what is best about a clinician educator with strong administrative/ leadership talents."

Matthew Parsons, MD

Professor of Radiology

"Dr. Parsons is a highly regarded teacher in neuroradiology. He is recognized both for outstanding didactic teaching, case-discussion teaching, and clinical teaching. He has developed a collection of lectures on difficult topics in neuroradiology including brachial plexus imaging, emergency neuroimaging, spine imaging, and head and neck radiology. He lectures extensively locally, regionally, nationally and internationally on these topics with multiple repeated invitations to speak because of his excellent skills as a didactic lecturer."

Monica Shokeen, PhD

Associate Professor of Radiology

"Dr. Shokeen has a stellar record of teaching, curriculum development, outreach, advising and mentorship. She is a successful faculty member with accomplishments in both research and education. Dr. Shokeen has been able to maintain a nurturing balance of research and teaching throughout her training at MIR as a postdoctoral researcher as well as faculty member."

AWARD RECIPIENTS: LIFETIME ACHIEVEMENT

The Lifetime Achievement Award, established in 2021, recognizes current Washington University faculty members with at least twenty years of service as faculty in an academic teaching setting who have shown a lifelong commitment to education and demonstrate excellence in one or more domains of educational service, leadership or scholarship. Congratulations to the following recipients!

Janice Hanson, PhD, EdS, MH

Professor of Medicine

“With over 50 years of experience as an educator first in early childhood development and then in medicine, Dr. Hanson has built an impressive career that significantly impacts how we teach health care professionals to best care for patients in a patient-centered, humanistic way. Her excellence extends across the domains of medical education, and I speak on behalf of many when I express my personal gratitude for the ways she has championed careers for medical educators.”

Nigar Kirmani, MD

Professor of Medicine

“Over the many years she has served at WUSM, she has garnered numerous teaching and service awards including the prestigious Distinguished Service Teaching Award at Washington University School of Medicine 12 times and for five straight years. Dr. Kirmani has been an outstanding mentor to numerous fellows, residents and junior faculty and all have benefitted from her wisdom that she is so generously willing to share. The fellows and residents she has trained have assumed leadership positions in infectious disease and public health all over the world and have authored or co-authored more than 200 articles.”

Linda Pike, PhD

Alumni Endowed Professor of Biochemistry & Molecular Biophysics

“Dr. Pike has been THE mainstay of biochemistry and nutrition education at WUSM for almost 40 years. She began as a lecturer in Advanced Biochemistry for medical students in 1985, later taking on additional teaching roles for graduate students. Since 1995, she has taken on course leadership- initially in advanced courses and subsequently all core courses. Throughout, she has been recognized as a truly exceptional teacher. She has won the Distinguished Service Teaching Award from the first-year class 21 times, as well as the preclinical teacher of the year, lecturer of the year and professor of the year.” Further, *“Dr. Pike has served as a mentor and advisor to students and junior faculty in the lab- supporting their career development as scientists through the DBBS program. Another critical area of her mentorship and advising, however, has been in the support of women. She was a founding member of the Academic Women’s Network and has been an active member ever since.”*

POSTERS:

Enhancing LGBTQIA+ Recruitment at WUSM

Daniel Arroyo Ariza, MD; Anthony Dao, MD

Integration of Clinical Trial Development in Hematology and Oncology Fellowship Training

Christine Auberle, MD; Ningying Wu, MD, PhD; John F Dipersio, MD, PhD; Saiama N. Waqar, MBBS, MSCI; Lee Ratner, MD, PhD

Improving Curriculum Utilization in Pediatric Anesthesiology: An Intervention Study

JOINTLY ACCREDITED PROVIDER™
WITH COMMENDATION
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Washington University School of Medicine in St. Louis is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Available for this Activity

American Medical Association (AMA)

Washington University School of Medicine in St. Louis designates this live activity for a maximum of 3.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
