

## About the Program

University College offers a pre-nursing program that provides the pre-requisite courses (54 units) for students to apply to the bachelor of science in nursing (BSN) at **Goldfarb School of Nursing**. The program is designed for part-time study and can be completed in three years. Students may begin the program in the fall, spring, or summer. Each student's specific course plan may vary depending on their timeline, prior course work, and courses taken per term.

Students who complete an additional 6 units (two courses) can earn an **Associate in Arts (AA) degree**. Students interested in this option should speak with a University College academic advisor to ensure that all degree requirements are fulfilled. The AA degree is not required for admission to Goldfarb.

Students without previous academic credit are encouraged to enroll in our one-unit College Transition Seminar.

University College courses are offered evenings on the WashU Danforth campus; some courses are offered online to increase program flexibility.

## Students with Prior Course Work

Students should submit transcripts to Goldfarb for an evaluation of prior work and assessment of which pre-requisite courses remain to be completed at University College.

Students seeking to earn the AA degree can transfer up to 24 units. Students pursuing an AA degree should submit transcripts of any courses completed at other colleges with their application for admission.

## Admissions Requirements for the Pre-Nursing Program

There are no formal admissions requirements for the pre-nursing program. Students should apply at [ucollege.wustl.edu/pre-nursing-program](http://ucollege.wustl.edu/pre-nursing-program).

## Admissions Requirements for the Associate in Arts Degree

At least six units of transferrable college-level course work; or at least six units of course work taken at University College and proof of high school completion or GED. Minimum 2.7 GPA. Students can begin taking pre-nursing courses before being admitted to the AA program.

## Sample University College Schedule

### FIRST YEAR

#### SUMMER TERM
