
SUN BEAR NEWS

3D Creative Art Project

Last week, Estella's mom came to our Sun Bear room to create a collaborative three-dimensional piece of art for the upcoming WUNS auction. Using small treasures from home and our classroom, each child placed unique items on a blank canvas. The children were asked to think about texture, space, layering, and size. The canvas was then painted for a truly great effect. The children enjoyed this unique experience! A special **thank you** to Alicia Wrighton! ☺

The Process:

WUNS Trivia Night - Saturday February 21, 2015

Don't miss this special night to get together with friends or make new ones! Silent auction items will be on display, including our 3D creative art project.

Valentine's Day Fun!

Valentine Books:

The Day it Rained Hearts

Valentine's Day Is...

Valentine Bears

Pete the Cat: Valentine's Day is Cool

The Invisible String

Our salt dough hearts

We have enjoyed filling our afternoons with Valentine stories, projects, and fun! Some highlights include: salt dough hearts & painted noodles, stringing colorful hearts across our windows, puffy clouds that rain hearts, & colorful envelopes for our Valentines. We discovered secret messages by painting over white crayon. We experimented with conversation hearts submerged in different liquids, such as bleach, water, vinegar, & rubbing alcohol. Which ones dissolved? Which had little change? During our Valentine celebration we exchanged Valentines, played an estimation game, and enjoyed cupcakes that we made together.

It's raining hearts!

Castles, Dragons, and Knights, OH MY!

This week we explored Castles. We built different kinds of castles. Using sand, ice, blocks, cardboard and other materials, we went CASTLE CRAZY!
