## TRAIN WEEK!

We all enjoyed our week of incorporating trains into our curriculum. We brought the train table into our

Classroom. We also enjoyed a snack of graham crackers, ritz crackers and whipped cream to symbolize a train. Delicious!

## Classroom Happenings Outdoor Play

We love our outdoor time! We have extended our time outside due to the lovely weather that did not want to leave! We certainly are not complaining! Our gardening area has grown due to our need to plant the bulbs before the first frost. Many of the children have shown an interest in planting and working in our garden. The arrival of spring will showcase all of our hard work. Beautiful, decorative stones identify the boundaries of our garden. We have discussed many interesting fun facts about plants, soil, weather, seasons, etc. The various bulbs all have different bloom times in the spring. The beautiful and colorful spring blooms will provide brilliant color for us on our playground in the spring.
