

Bear Cub News

Washington University Nursery School

March 2017

Special Visitor

Dr. Christy (Kensley's Mom from the Teddy Bear class) came to talk to our class about her work as a doctor. She showed us many of the tools that doctors use: gauze wraps, stethoscopes, blood pressure cuffs, etc. What a fun day!

MARDI GRAS

The Bear Cubs celebrated Mardi Gras with an authentic "King Cake" and green, gold, and purple beads. Thank you to Cossette and her family for providing the Mardi Gras goodies! Using string, we splattered green, gold, and purple paint to make beautiful art!

HAPPY BIRTHDAY DR. SEUSS!

Last week we celebrated the writing Dr. Seuss. His rhyming books and silly illustrations made us giggle out loud. Hope enjoyed the delicious green eggs and ham that came home! We worked on cutting and gluing while we made striped "Cat in the Hat" hats.
