

OCTOBER 2017

# Bear Cub News

Washington University Nursery School

## COMMUNITY HELPERS

We learned about a variety of helpers in our community such as fire fighters, police officers, doctors, dentists, and construction workers. The children loved dressing up and roleplaying these different professionals. Dramatic play allows children to act out real life experiences.

## Clayton Fire Department Visits

Last week the Clayton Fire Department visited and talked to the students about fire safety. The fire fighters showed us the fire truck and many of the tools and hoses it holds. We also met “BLAZE” the Fire House Dog. The Bear Cubs were a great audience!

# COLORS & SHAPES

Colors and shapes are all around us! Using colors and shapes we created beautiful art, buildings, paper robots using squares and rectangles and so much more! Learning the different shapes is important for children as they are key to pre-math, logic, pre-reading, and writing skills.

*Thank you for sharing your children with us! This week we will explore PUMPKINS!
