

# OUR FABULOUS SUN BEARS!

SCHOOL YEAR 2019 - 20

We have had a fun, smooth, play-filled start to the school year! Sun Bears are diving into their routines. They have enjoyed exploring on the playground and engaging with each other in much imaginative, creative play. Indoors, the centers have been designed this week with a "getting to know you" theme: We learned how many letters were in each others' names and created an art project to display the results. Sun Bears are brimming with energy and curiosity and are loving re-acquainting themselves with friends from last year and making new connections.

Until next time,  
Colleen & Katie
