

# TEDDY BEAR NEWSLETTER

WASHINGTON UNIVERSITY NURSERY SCHOOL

## Friendship & Valentines Day

During February, we talked about Valentines Day and friendship in the Teddy Bear classroom. We enjoyed decorating our special Valentine box and envelopes to hold our cards on Valentines Day. Thank you for working so hard on your child's Valentines! Our giant decorated heart adorned our classroom door. Using pink puffy paint first, we added stickers, ribbons, tissue paper, and glitter. We read many Valentine stories and sang Valentine songs. Taking turns, sharing toys, and caring for one another are just some of the ways that we show our classmates kindness.

# Groundhog Day

We learned about the tradition of Groundhog's Day! The weather was quite spring-like and we even saw our shadows on the playground. In honor of this day we made Groundhog puppets and headbands.

## What does SCIENCE look like in the Teddy Bear classroom:

- Exploring the environment using different tools such as shovels, cups, funnels, magnifying glasses, scales, etc.
- Investigating nature and bringing natural elements indoors to explore further. (Rocks, branches, insects, flowers, etc.)
- Reading about living things such as animals, plants and the human body.
- Exploring the sensory table to learn about concepts such as sink/float.
- Observing and describing weather and seasonal changes.
- Participating in simple science experiments, such as mixing colors.

## Looking Ahead...

2/29/20 - WUNS Art Show (11 - 1)  
Gallery Night (7 -10 p.m.)  
at Coltrane Systems

3/16-20/20 SPRING BREAK

Love, Chona & Katie
