Agenda

Myth or truth? Debunking a few myths

Editors and Reviewers: How do they feel?

Solutions and Tips

- CloudResearch (formerly TurkPrime)
- See also Positly.com as an alternative

Mturk Myth or Truth?

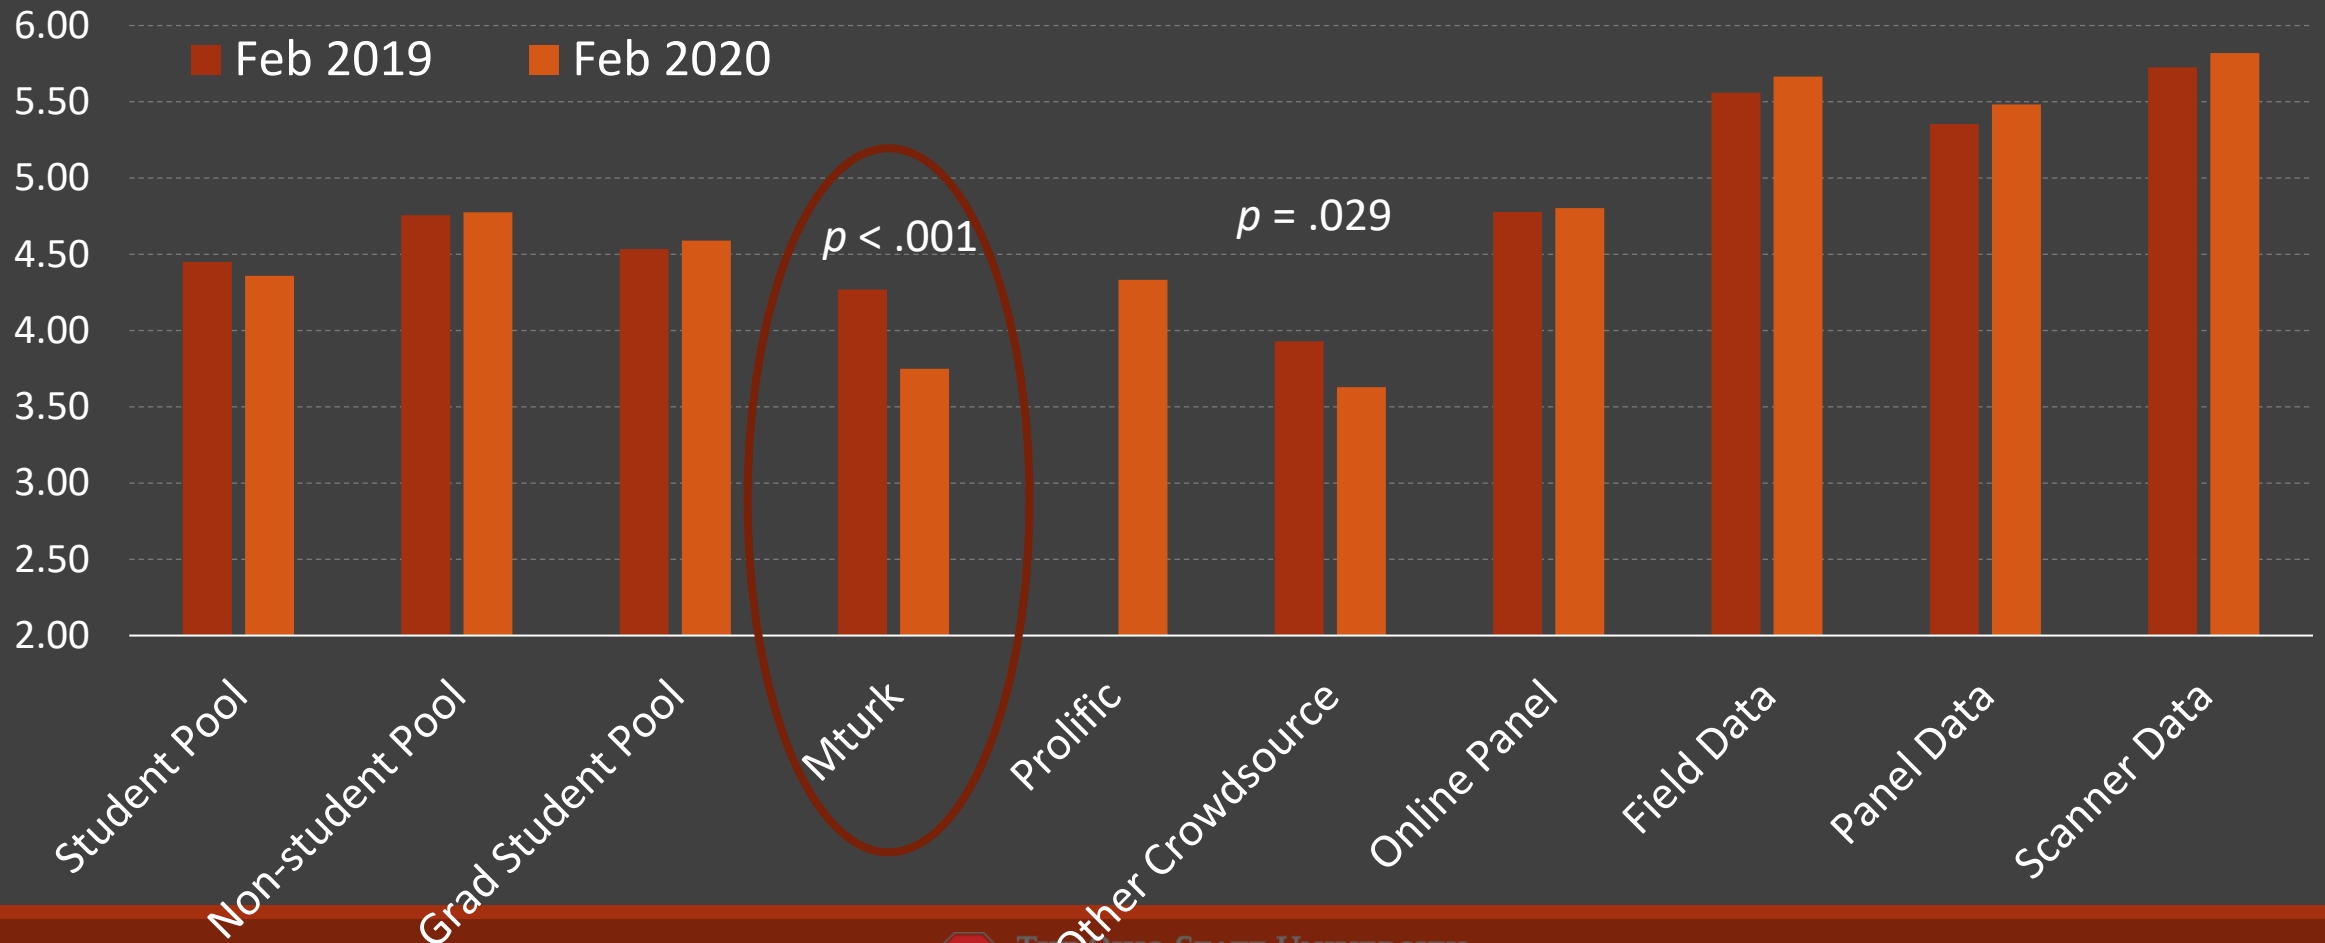

1. ~~Not real people~~
2. ~~Low quality data~~
3. ~~Uneducated~~
4. ~~Poor/low income~~
5. ~~Internet geeks~~
6. ~~The lab is still more reliable~~
7. ~~They don't pay attention~~
8. ~~Mostly Indian~~
9. ~~Mostly non-native English speakers~~
10. Editors/reviewers hate it!
 - Won't accept papers with only Mturk data
 - And other views about Mturk
11. Attention: Bots! Bots! Bots!
12. Is it MTurk, Mturk, or mturk?
13. Non-naivete
14. Drop outs/p's pre-screening
15. Pre-screening

What Do Researchers Think about Mturk?

...Decrease in Quality Perceptions

How do you perceive the quality of data obtained from the following sources?

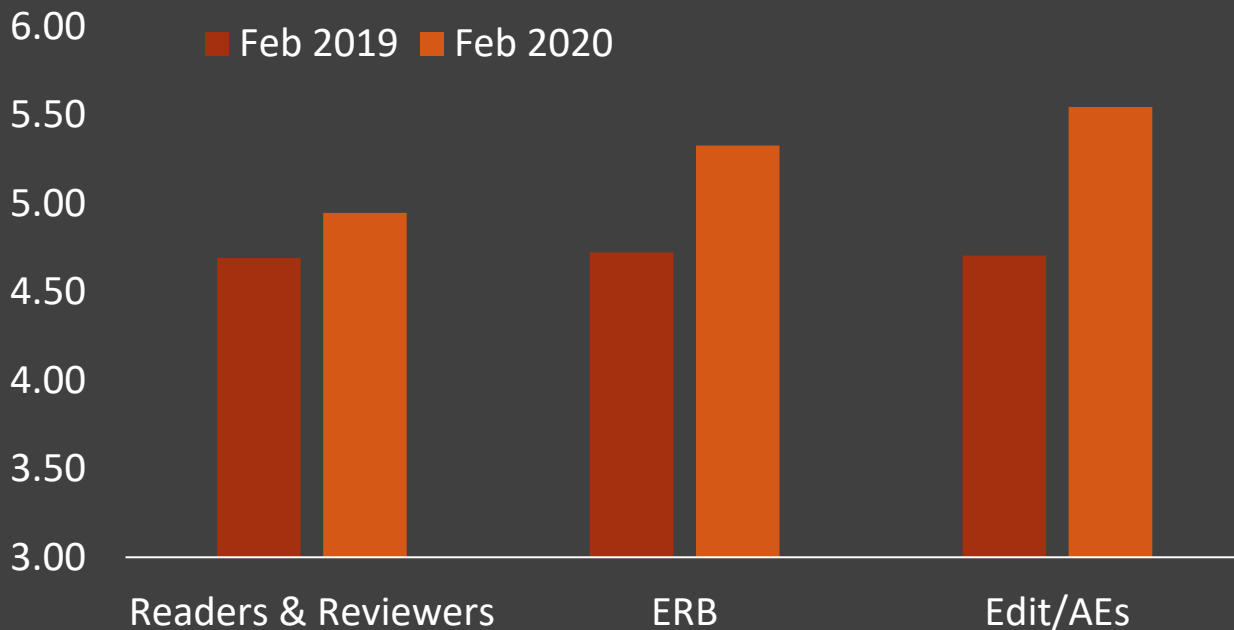

What Do Researchers Think about Mturk?

...Decrease in Quality Perceptions

Papers should not have all their data from Mturk

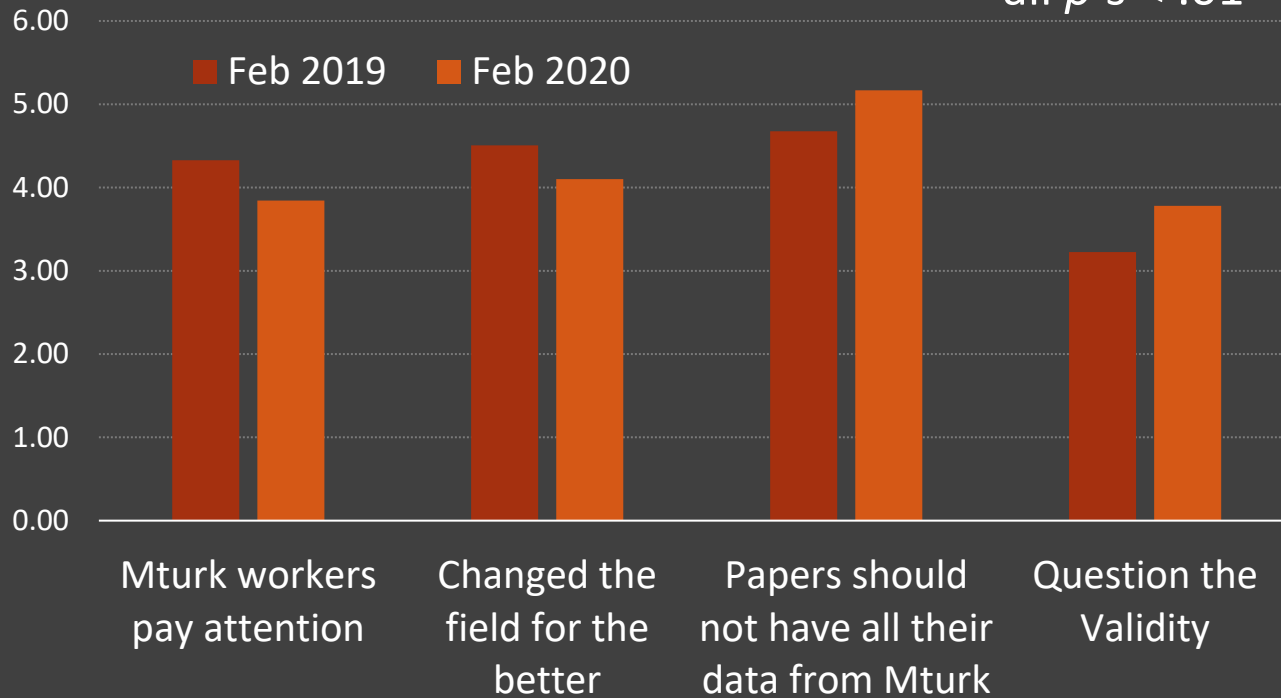

Mturk samples are better than student samples.

What Do Researchers Think about Mturk?

...Decrease in Quality Perceptions

Perceptions of Mturk are Decreasing
all p 's < .01

- Trust seems to be decreasing
- Quality measures correlated with
 - Age
 - Rank
 - Usage
- Wisdom or Familiarity?
- Researchers expect Mturk use to grow
- What to do? Some solutions...

Solution 1: Stop Doing MTurk Studies

Solution 2: Get a job at Ohio State

(OR OTHER SCHOOL WITH 8000 SUBJECT
HOURS/YEAR)

Solution 3: Other Platforms?

Prolific

- Requires > \$6.50/hr
- Representative samples (extra \$)
- Pre-screening (not extra \$)
- Slightly slower
- Simple and more integrated
- Slightly less attention?

CrowdFlower

Positly and CloudResearch (will discuss)

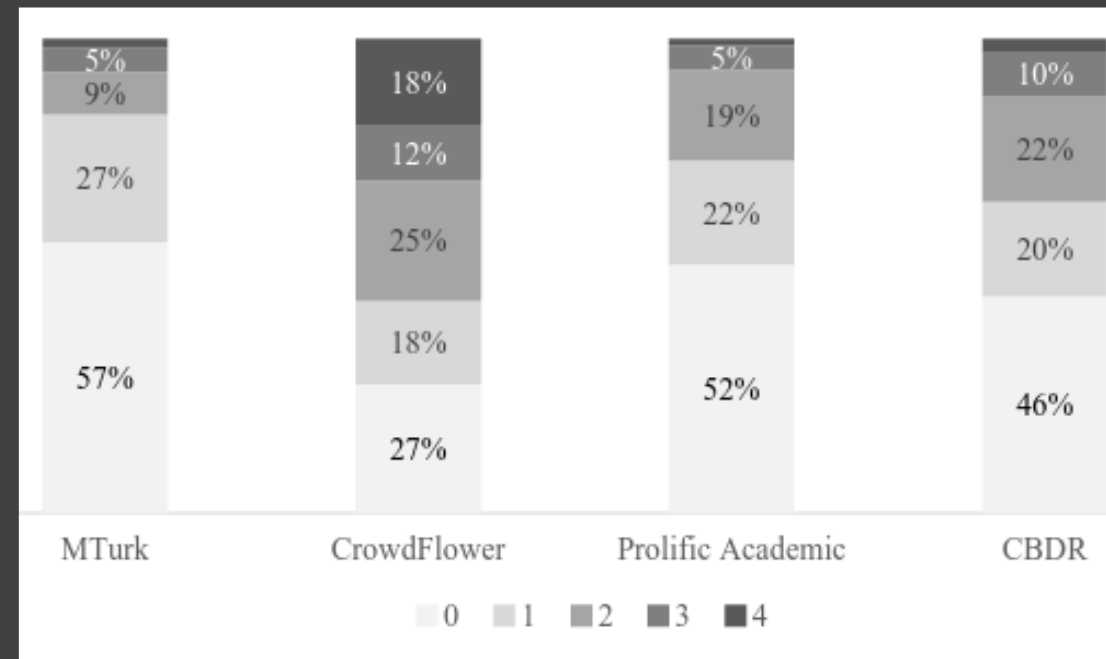

Qualtrics Panels

Others?

Peer, Samat, Brandimarte, & Acquisti (2017)

JESP

of failed attention check questions between the platforms (% of P's)

Solution 4: Measure Real Behavior on MTurk

Example₁: Tonietto, Malkoc, & Nowlis (2019)

- P's entered their availability/calendar on Qualtrics
- IV: Generate times bounded/not bounded by tasks (btw SS)
- DV: Choice of MTurk study
 - 30 minute brief study for \$2.50
 - 45 minute full study for \$5.00
 - Neither

Example₂: Coin flip game to measure cheating (Balasubramanian, Bennett, and Pierce 2017)

Solution 4: Measure Real Behavior on MTurk

Example₃: Take picture of artwork and upload or email it

Example₄: Costello and Malkoc (working paper)

- DV: Donate \$ or donate time (micro-donations: counting/classifying animals, algae, weather patterns)
- Do you have other examples?

Solution 5: Go Beyond Surveys

Longitudinal studies

- 60% retention rates (but need to pay more)

Group interactions

Webcams for facial expression analysis and analyzing emotions (FaceReader)

Physiological measures

- Measure heart rate (Muender et al. 2016)

RA Work

- Classification of content
- web searches
- registering for websites
- viewing ads
- edit transcripts
- test software
- skilled tasks: logo & graphic design, ad copy
- See Fiverr, Upwork, Guru

Issue: Data Quality and Bots

SOLUTIONS

How bad is it?

- Different opinions, and changed over time
- Bot-gate: August 2018
 - Evidence that they are foreign workers with low English proficiency, posing as US workers
- “Workers pay attention”
 - 2019: 4.33
 - 2020: 3.84

Attention checks?

- More on this later...

Increase your sample size!

n = 100+ per cell (see datacolada.org)

Use CloudResearch or Positly

TaskMaster: cut and paste html into qualtrics

[Permut, Fisher, & Oppenheimer \(2019\). TaskMaster: A Tool for Determining When Subjects Are on Task, Adv. in Methods & Practices in Psych Science](#)

Use Qualtrics Bot Detection (if your license has it)

Survey Protection

- Open Access.** Allow anyone to take this survey.
- By Invitation Only.** Prevent people from taking the survey using an anonymous survey link.
- Password Protection.** This password must be entered to take this survey:
- Prevent Ballot Box Stuffing.** Take action when a respondent tries to take this survey more than once.
 - End survey and display default message.
 - End survey and display custom message...
 - Redirect to a full URL, ex. "https://www.qualtrics.com":
 - Continue survey and set an embedded data field.
- Bot Detection.** Flag suspicious responses using [reCAPTCHA](#).
- Email Scan Roadblock.** Use [ReCAPTCHA](#) to prevent security scanners from starting surveys when testing your survey links.
- RelevantID.** Flag suspicious panel respondents using [RelevantID](#).
Reset RelevantID so respondents can retake survey after
- HTTP Referrer Verification.** The user must come from this URL to take the survey:
- Prevent Indexing.** A tag will be added to the survey to prevent search engines from indexing it.
- Secure Participants' Files.** Files uploaded as responses can only be viewed by users with permission to view responses.
- Show a **custom message** when a respondent revisits a **previously completed** link..
- Survey Expiration.** The survey will only be available for a specified date range.

Issue: Attention & Checks

Researchers are using them more:

- 2019: 74%
- 2020: 85%

Downsides

- “Attention” might mean not naïve or those with higher Need for Cognition or System 2 processing
- P-hacking: Pre-register your attention check

Mturk Masters?

- Not naïve, \$\$\$
- 18% researchers use Masters

Solutions

CloudResearch

- 43% researchers some sort of blocks via CloudResearch (up from 31%)
- Now has
 - “Block Low Quality Participants”
 - “CloudResearch Approved Participants”

Be objective: Not arbitrarily decide what ‘bad data’ looks like post-hoc

Pre-register!

Issue: Pre-screening & Non-naiveté

Non-naiveté

- We may be sampling the same people across studies
- Sampling same 7,300 workers on average (Stewart et al. 2015)
- Consider sampling workers with less experience (eg, < 500 HITs)

Workers are usually honest, but will lie to be eligible for participation

- 48/106 heterosexual workers claimed LGB to be eligible for study
- 8% women, 17% men changed gender to be eligible for study

Lying increases with compensation

Lie more about owning a dog than religion or politics

Pre-screening on CloudResearch: Two Ways

Pay to use CloudResearch's criteria

- \$\$\$, but lots of options and fast

Create your own database (see supplemental slides)

- Stage 1: Collect important info (eg, gender, age, political affiliation)
- Stage 2: Launch HIT limited to target group

Income General Demographics	Min: Less than \$10,000	Max: \$150,000 or more
Age General Demographics	Min: 18	Max: Over 70
Gender General Demographics	What is your gender? All selected	
Marital Status General Demographics	What is your marital status? All selected	
Schooling General Demographics	What is your highest level of schooling? All selected	
Sexual Orientation General Demographics	Which best describes your sexual orientation? All selected	
Born In The USA General Demographics	Were you born in the United States? All selected	
Immigrant General Demographics	Were you born in the United States? All selected	
Parents Born In USA General Demographics	Were both of your parents born in the U.S.A? All selected	

Issue: Compensation

“You get what you pay for” does NOT apply to Mturk.

- Research shows: Paying More \neq Better Data

What do others pay? Our surveys say

- \$0.31 for a 5-minute study

Minimum wage?

- Min wage of \$7.25/hr in US (\$.121/min)

Guidelines for Researchers

http://wiki.wearedynamo.org/index.php/Guidelines_for_Academic_Requesters

Use qualifications and pre-screening

- > 95% approval
- Do not let workers to screen themselves

Be Ethical – pay a fair wage

- Min wage of \$7.25/hr in US (\$.121/min)

Collect Data and Track your participants

- Collect basic demographics
- Prevents non-naiveté, anonymous via CloudResearch

Try other sources

Attention: Bigger samples or use objective checks and pre-register.

Guidelines for Academic Requesters

- Clearly identify yourself
- Provide reasonable time estimates
- Approve work as soon as possible
- Maintain worker privacy
- Do not block workers
- Maintain a responsive line of communication

Monitor your reputation.

- Reddit forms
- Turkopticon (shut down)
- Others?

Other Questions?

How to Create Your Own Database of Workers

Many Issues are Solved by CloudResearch

✔ See our paper "TurkPrime.com: A versatile crowdsourcing data ..." in Behavior Research Methods

Recruit Online Participants

Simple • Affordable • Powerful Crowd|Research

Toolkit for Amazon Mechanical Turk
✔ Basic Toolkit Free for Academic Users
✔ MTurk Panels on Your Own Requester Account

Lab Service: Mechanical Turk Panels
✔ Target MTurk Workers by Ethnicity, Age and Custom Traits

Lab Service: Prime Panels
✔ Recruit from 20 Million Participants by any Demographic

Over 5000 Labs and Researchers Worldwide Use TurkPrime

Create a Study

Mechanical Turk Studies

Run a study on your own MTurk account

- MTurk account required.
- Gives you the flexibility to set payment amounts and other custom settings.
- Directly communicate with workers and monitor your own study progress.

Run a fully managed MTurk study

- No MTurk account needed.
- TurkPrime manages worker communication and study maintenance.
- Reach your desired population with our TurkPrime guarantee.

Need to run a complex study? [Click here for a price quote.](#)

MTurk Toolkit

Worker Payments and MTurk Fees funded with your MTurk Requester account. TurkPrime Lab Fees are funded through your TurkPrime Lab account

1. Panel Options (Optional)

2. Basic Info

3. Describe HIT

4. Setup HIT and Payment

5. How Workers are Approved

6. Worker Requirements

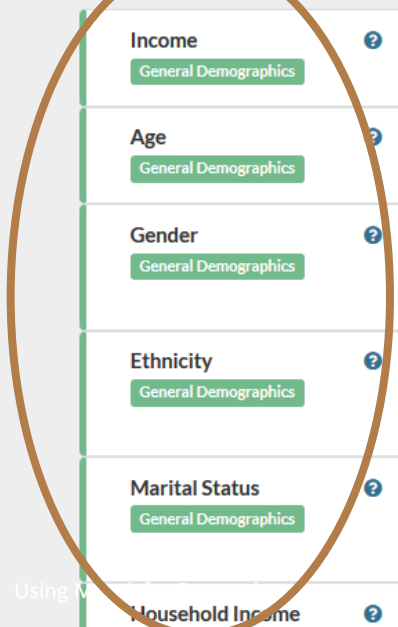

7. MicroBatch (Pro Feature)

8. Pro Features

9. Save

Total Number of Survey Participants
 The number of participants you want to take your HIT

Enter by category... (Suggest Other Demographics)

Income General Demographics Min: Less than \$10,000 Max: \$150,000 or more

Age General Demographics Min: 18 Max: Over 70

Gender General Demographics What is your gender? All selected

Ethnicity General Demographics Which racial group best describes you? All selected

Marital Status General Demographics What is your marital status? All selected

Household Income General Demographics How much total combined income do all members of your household earn before taxes?

If you do not select a Panel then there will be no Panel charge for your study (other fees may apply, such as Pro Features)

Feasibility

✓ Your study will most likely complete.

Note: The panel fee is in addition to Pro Features fees and is funded through your TurkPrime Lab account.

Panel Cost per Worker **\$0.00** Range \$0.15-\$0.75/Worker submission

Number of Workers **1**

Total Panel Cost: **\$0.00 (\$0.00 x 1 Workers)**

* Title

Title of the survey that will be displayed to workers

Description

A description of your survey

Custom Instructions

B **I**      

Survey takes about 1 minute.

Note: This HIT is an academic study being conducted by university researchers. Your answers are completely anonymous and we are just interested in your opinions. It is not being conducted for commercial purposes or to make profit, and it won't be sold or used by a company or marketers. You don't have to search the Internet on this HIT. It's just opinion questions, so please take your time to answer the questions honestly.

Requirements:

- Must be 18 or older

(Optional) It is best to include instructions on your survey landing page. Nevertheless, you may include custom instructions to display to workers.

Standard instructions that workers should follow the hyperlink and submit a secret code (if set) are always included and will follow the custom instructions, if specified.

Keywords

Keywords associated with your HIT

This project may contain potentially explicit or offensive content, for example, nudity

Worker Payment Per Survey

\$

Amount you will pay each worker who completes your HIT

Expected time to complete HIT

The estimated amount of time for Worker to complete HIT. This will be appended to your HIT description.

Restarting your HITTo enable **Restarting your HIT** make sure that the time allotted for the HIT is no longer than 90 minutes

Time allotted per assignment

Maximum time allowed for a Worker to complete the HIT

HIT expires in

The amount of time you want your HIT to be active for

* Survey Hyperlink

 [Preview link in new tab](#)

The URL of your survey

Query String ParametersTurkPrime will add the following query string parameters to your URL so you can take advantage of them in your data collection. The parameters are: `workerId`, `assignmentId`, and `hitId`.

- `workerId` -The MTurk Worker ID
- `assignmentId` -A unique ID that Amazon generates for a worker taking your HIT
- `hitId` -The ID of your HIT

For example, if your Survey Link is <https://www.example.com>, we will add the above parameters to the URL, so the final URL might look like <https://www.example.com?workerId=ABCD1435&hitId=35hgfsbdu&assignmentId=vbwjebwufg>. You can then take advantage of these parameters by setting up [Qualtrics Embedded Data](#)**Scheduled Launch Time (UTC)**

Please note that you may leave the Scheduled Launch Time blank if you want to launch your survey right away. This feature is useful if you want to automatically launch your Survey at a later time.

Scheduled Launch Time (UTC) ⓘ

Dynamic Completion Code For Qualtrics

- Each worker will have a unique secret code. Your HIT can either be auto-approved or manually approved.

Setup for Qualtrics

1. Create or Edit a Survey
2. Click on "Survey Options"

3. In the Survey Termination Section: Click on Custom end of survey message...

4. If you have a Secret Key option that you previously created Select it and you are done/ Otherwise, Click New Message
5. Enter Secret Key in the Description field. (Next time you can select this message.)
6. Click the Source

button

7. Paste the following text exactly into the window as shown

```
<iframe src='https://www.TurkPrime.com/TakeLaunchedSurvey/DynamicKey' width='100%' height='200'></iframe>
```

Create a New Message

Category End of Survey Messages

Description Secret Key

```
https://www.turkprime.com/TurkPrime/TakeLaunchedSurvey/DynamicKey' width='100%' height='200'></iframe>
```

8. Click Save

Auto Pay Workers (approve only if completion code is correct)

```
https://www.turkprime.com/TurkPrime/TakeLaunchedSurvey/DynamicKey' width='100%' height='200'></iframe>
```

8. Click Save

Safety Feature

Automatic grading will only approve Workers and not reject them. Rejections must be performed manually (in the Dashboard) before the "Auto pay workers in" time frame found below. See [this](#) blog post for more details.

Manual Assignment Management

You will manually approve the HIT assignments and it will **NOT** be auto-approved based on the secret key.

Auto pay workers in

The time before workers are automatically approved for work (Useful only if no Secret Code is specified and HIT is manually approved)
