

CFAES

Water Quality Wednesday Webinar Series

February 16th from 10:00 – 11:30 AM Via Zoom

Nitrogen Efficiency and Loss Prevention

February holds two Water Quality Wednesday webinars – the second one falling on February 16th, 2022. This webinar will feature speakers from right here at OSU: Greg LaBarge, Field Specialist, Agronomic Systems for OSU Extension, Dr. John Fulton, Professor and Extension Specialist in the department of Food, Agricultural, and Biological Engineering, and Dr. Steve Culman, Professor in the School of Environment and Natural Resources and Extension State Specialist in Soil Fertility. Time for a Question-and-Answer session will be allotted at the end of the program for participants to engage with the speakers. Both CCA continuing education credits and CLM credits will be offered at the end of the live webinar on February 16th.

Location: via Zoom, register for one or all sessions at go.osu.edu/WQW

Cost: Free, but registration is required to receive the Zoom link

Details: Join the Ohio State University's Water Quality Extension Associates for a webinar series discussing topics related to water quality. This webinar will focus on Nitrogen's behavior and movement in soil, in-season Nitrogen recommendations, as well as tips for utilizing the Maximum Return to Nitrogen (MRTN) tool.

Contact information: Jordan Beck, beck.320@osu.edu; (419) 590-6038

Future WQW Webinar Dates:
March 23 –Emerging Technology in Water Quality
