## CLM Webinar Series

# Webinar 3: Organic Nutrient Management

The OSU Extension Water Quality Team is working with the Ohio Department of Agriculture to kick off a bi-monthly, year-round webinar series. These webinars will specifically target topics related to our Certified Livestock Managers, but everyone is welcome. Each webinar will provide **1.5 CLM continuing education credits** as well as **1.5 credit hours for CCAs**. We hope these webinars will offer useful information and create a space for communication between all parties involved.

To register for this webinar or the entire series, [visit go.osu.edu/CLM](https://go.osu.edu/CLM).  
*Stay tuned for more information about our next webinar in February!*

This webinar will focus on utilizing manure as an organic fertilizer. Below you will find the sequence of topics we plan to cover.

We are also excited to have a group of panelists available for questions following the presentations:

- Our Team of **Water Quality Extension Associates**
- Matthew Romanko, OSU Extension Water Quality Associate
- Amber Emmons, OSU Extension Water Quality Associate
- Duane Stateler, Blanchard River Demonstration Farms Network

If you have any questions regarding this webinar, please contact Matthew Romanko at [romanko.7@osu.edu](mailto:romanko.7@osu.edu) or (567) 342- 7095
