

2025 Field to Finance - Growing Success

March 4, 2025

You should attend the Field to Finance – Growing Success monthly class if:

1. You are a new or beginning farmer. *Whether you're just starting out or looking to enhance your knowledge, this program is designed to provide foundational skills and advanced insights for farmers of all ages.*
2. You want to sharpen your skills in agronomy and farm management. *Topics include crop planning, soil health, financial management, business analysis, and more—tailored to the unique needs of Paulding County agriculture.*
3. You're seeking hands-on learning opportunities. *Gain practical experience and explore real-world strategies for improving your farm operation, from labor management to succession planning.*
4. You're interested in sustainable farm growth. *Learn how to create a viable and profitable farming operation, ensuring long-term success for you and future generations.*
5. You value community and networking. *Connect with peers, local experts, and experienced farmers to exchange ideas, share challenges, and build relationships that support collaborative growth.*
6. You're planning for the future of your farm. *Benefit from sessions focused on transitioning farm ownership and management, including insights from generational partners with firsthand experience.*

With monthly sessions held year-round, this program offers a consistent, supportive environment for learning and growth. RSVP to reserve your spot and join a community of farmers dedicated to growing success!

March Farm Management Topic - 9:00 AM

How do I use QGIS in Agriculture Technology -
The Value of a Farm Meeting in Succession
Planning

March Agronomy Topic - 10:00 AM

Using the Farm Management Budgets for Corn,
Soybeans and Wheat.
