

Siqi Lin

College of Life Science & Technology, Huazhong University of Science and Technology, 430074 Wuhan, China

+86-15989186325

sikeilam.sqlin@gmail.com

Education

Undergraduate, Huazhong University of Science and Technology 2021.09 – Present
Major in Bioscience
Concentration: Cell Biology, Biochemistry, Virology
Expected Year of Graduation: 2025

Research experience

Undergraduate research 2021.11 – Present
College of Life Science & Technology, Huazhong University of Science and Technology, Jianke Gong
- Conduct touch experiment on different kinds of *C. elegans* to measure its touch adaptation. Explore the relational gene, protein and the mechanism of the adaptation. We got some genes and neuron cells that probably affect the touch adaptation.

Remote research project 2022.05 - 2022.07
School of Government, Peking University, Lin Liu
- Study the game theory in economics. We made mathematical model based on evolutionary game theory to analyze the corporation's financial fraud and independent directors' decision.

Remote research project 2023.05 - 2023.08
Cornell University, Qiuye Zhao
- A course project to study the molecular mechanism of cancer tumors. Learn the mechanisms and probable ways of cancer cures.

Research Publication

Cheng, C. H., Huang, Z., Lin, S., & Wu, H. (2022). Analysis of Corporation's Financial Fraud and Independent Directors' Decision Based on Evolutionary Game Theory. *BCP Business & Management*, 31, 195–204. <https://doi.org/10.54691/bcpbm.v31i.2561>

Specialized Skills

Modern biology and biotechnology (Immunotherapy)
Cell biology experiment skill
Programming: R, C, C++, and Python (basic level)
