111. S. Nelson Ave
Wilmington, OH

For More Information Call

Tony Nye - 937-382-0901

nye.1@osu.edu

Agriculture is becoming more complex every year with more technology, changing genetics, higher costs of production, world-wide market impacts, environmental shifts, labor issues, and the list goes on and on. It is also an exciting time for agriculture for many of the same reasons. As part of the family farming operation where do you see your role?

We invite you to attend one, or all the programs we have planned. Come for some great discussion, fellowship and learning. Spread the word – this event is open to anyone.

These events are **FREE** to those attending. This program is designed for great discussion and learning. We will have dessert and other refreshments each evening.

Make your reservation by calling our office at **(937) 382-0901** and let us know what nights you will be attending.
