

2023 National 4-H Conference Selection – Sample Application

Open to Enrolled 4-H Teens Across Ohio

Background:

The National 4-H Conference is the premier civic engagement opportunity for 4-H members (15-19 years old) who are actively engaged in 4-H programs across the U.S. and its territories. The conference is administered by 4-H National Headquarters of the National Institute of Food and Agriculture (NIFA) within the U.S. Department of Agriculture (USDA). This experience upholds a tradition dating back to 1927. Known then as the “National 4-H Club Camp,” delegates slept in tents on the grounds of the National Mall in front of the Department of Agriculture (USDA) in Washington, D.C. Held annually, except for several years during World War II, the camp served to develop the next generation of leaders. Delegates attended training workshops, became acquainted with government, and had the opportunity to meet with state leaders. In 1958, the event name was changed to National 4-H Conference and, in 1959, the meeting moved from the National Mall to the newly founded National 4-H Center in Chevy Chase, MD (right outside of Washington, D.C.). Due to the COVID-19 pandemic, National 4-H Conference was cancelled in 2020 and held virtually in 2021. In 2022, National 4-H Conference resumed in-person programming as a hybrid format, also offering a virtual attendance option to delegates.

Today:

National 4-H Conference is specifically focused on civic engagement, civic education, and personal development. Delegates arrive ready to connect, learn, engage, lead, and impact their communities, their nation, and their world. In 2023, National 4-H Conference returns for youth delegates to attend in-person in Washington, D.C. or participate virtually through an online conference platform during April 14-19, 2023. **Ohio delegates are expected to attend in-person for this conference even though there is a virtual option.**

National 4-H Conference Structure:

- Delegates self-select into roundtable topics during registration.
- Roundtable sessions are conducted during the conference where, in a group, delegates:
 - Identify and develop their perspective on the topic through research and deliberation.
 - Find and share their own voice by listening and contributing.
 - Develop a briefing on the topic that includes background information, facts, and recommendations.
- Workshops are conducted to enhance delegates’ knowledge, and skills related to civic engagement.
- Every delegate, as part of their roundtable team, presents to a federal agency that has interest in their topic. The roundtable shares their briefing to agency representatives and engages in meaningful dialogue.
- State delegations will arrange visits to their Congressional delegations on Capitol Hill (and hold these virtually if necessary). This continues delegates’ experience in developing and sharing their voice with decision makers. Due to the adjustment in the hybrid schedule for 2023, details are not yet confirmed.
- Delegates connect with each other throughout the conference through fun and educational opportunities.
- Delegates enjoy a true partnership with roundtable facilitators, the conference leadership team, adult advisors, and federal staff from 4-H National Headquarters and many other agencies.

Ohio 4-H Delegation

Each year, Ohio 4-H members have been given the opportunity to represent Ohio at the National 4-H Conference. This year, we will select a minimum of 3 teens to attend (potentially able to send more individuals, depending on funding). **The individuals selected must be available for the conference dates of April 14-19, 2023, and commit to pre-conference expectations.**

Covid-19 Protocol (from National 4-H Conference)

To ensure the health and safety of all youth and adult attendees as we continue to experience the COVID-19 pandemic, strict protocols have been established for the in-person event. These include, but are not limited to, proof of complete vaccination series or a negative COVID-19 test within 72 hours prior to arrival, mask requirements, increased sanitation measures, and adherence to local COVID-19 guidelines.
