

Structural Biology & Biochemistry

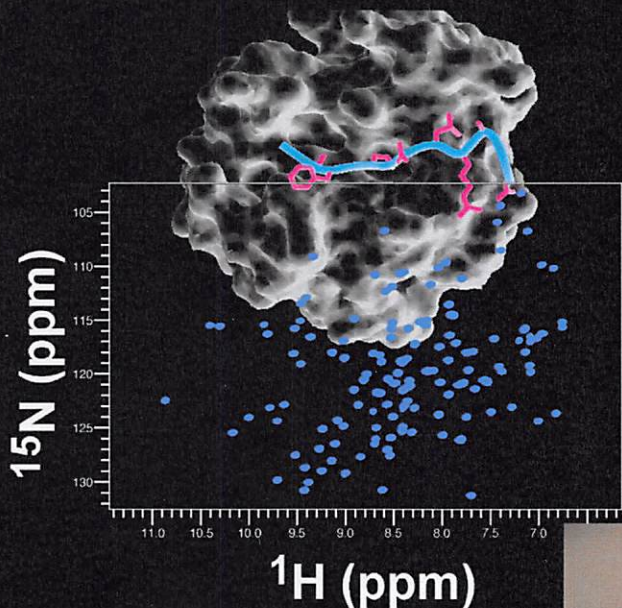

Ph.D. program at the

University of Colorado Denver

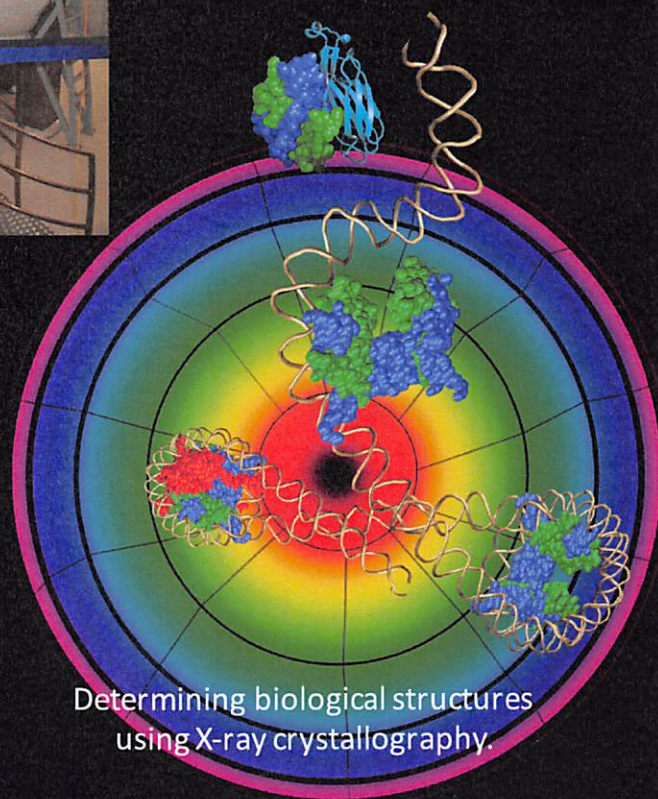

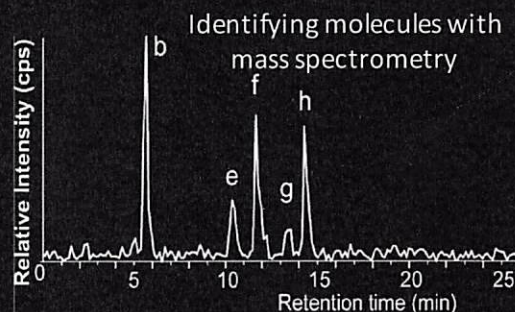

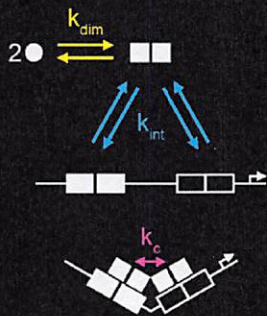

Anschutz Medical Campus

The Ph.D. program at UCD provides outstanding training for a career in the ever growing and varied fields of Structural Biology and Biochemistry. Our dedicated faculty encourage and mentor students in their labs to become successful independent researchers. The Program is supported through the graduate school and has access to state-of-the-art equipment and hands-on training in technologies that include NMR Spectroscopy, X-ray Crystallography, Mass Spectrometry/Proteomics, Computational Biochemistry and Biophysics.

Elucidating structural mechanisms through NMR and biophysics

Determining biological structures using X-ray crystallography.

Applications for Fall 2016

DUE, DECEMBER 1

Please see our website (QR code above) or contact program administrator Elizabeth Wethington at STBB@ucdenver.edu with any program questions.
