

PURSUING A MASTER OF SCIENCE DEGREE IN CHEMISTRY AT TEXAS A&M UNIVERSITY-COMMERCE THIS FALL

Our M.S. Graduates have obtained positions in industry or chemical education while others are pursuing Ph.D. or M.D. degrees. We encourage students interested in chemical or biochemical research to apply to our program. The application fee will be refunded for qualified students upon course enrollment in the program. Graduate assistantship applications are being accepted for Fall semester 2020 (begins 8/24/20) so apply soon.

Texas A&M University-Commerce has three Master's Programs

Master of Science in Chemistry - Option I Thesis (34 credits)

Track I: Professional Chemistry Track

Concentration in Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry or Physical Chemistry

The program requires completion of ten courses (30 credits) as noted below. In addition, students are required to enroll in CHEM 501 Graduate Seminar (1 credit) for four semesters they are in residence completing degree requirements.

The Department of Chemistry occupies an excellent research facility with 7 research labs in the McFarland Science Building where M.S. students can engage in ongoing research projects (see our website [Chemistry Research Projects](#)).

The Department of Chemistry also offers 2 Professional Track Non-Thesis Master of Science in Chemistry Options:

Choose one of two Professional Tracks - (36 semester hours)

Track II: Professional Chemical Business Track

Track III: Professional Chemical Education Track

Contact Dr. Laurence Angel (Laurence.Angel@tamuc.edu), Graduate Advisor, or Dr. T. West Department Head (Thomas.West@tamuc.edu) to request more admission information. Apply with ApplyTexas (https://www.applytexas.org/adappc/gen/c_start.WBX). See our Faculty/Staff page for more faculty contacts in the Department of Chemistry at TAMU-Commerce (www.tamuc.edu/chemistry).
