Sarah Bach Major: English Minor: Writing & Spanish
Internship: Professional Writing Capstone Experience

"The CAF Award allowed me to make the most of my last summer in college; I would not have been able to accept an unpaid summer internship without its funding. In this difficult time, I'm fortunate to not worry about fundamental expenses like rent and utilities. "

Victoria Piper Major: Psychology Minor: Studio Art, Integrative Approaches to Health & Wellness
Internship: Social Neurochemistry Lab

"Joining the Social Neurochemistry Lab was an outstanding opportunity for it offered me the chance to work on big questions in my top three desired fields: health psychology, psycho-neuroimmunology, and social psychology... This fund... allowed me to shed my doubts about redistributing hours from work to spending time in the lab."

Emma Sieftring Major: Psychology Minor: South Asian Studies & Studio Art
Internship: Undergraduate Psychology Research

"I am pursuing a career as a Clinical Health Psychologist, and knew that conducting research on the bio behavioral effects of cancer on children would be something that would have long term benefits to pediatric cancer patients."
