

## ACS Publications

### Authoring Services

ACS Publications' Authoring Services has helped thousands of authors prepare their manuscripts with English language editing, translation, figure services, and more.

Staffed by experienced researchers, our suite of Authoring Services are designed to help improve and polish your manuscripts to boost the likelihood of publication and maximize the impact of your work. ACS frequently provides members with special offers and discounts for these services.

### ACS Webinars®

Every Thursday at 2pm ACS Webinars® bring you the best and brightest minds in chemistry live. Join in each week for engaging presentations and insightful discussions that connect you with subject matter experts and global thought leaders concerning today's relevant professional issues in the chemical sciences, management, and business. Registered participants can become part of each webinar during live Q&A segments and by answering trivia questions.

Chemistry for Life®

## ACS Certified Graduates Member Benefits

As a recipient of the 3-year free membership offered to ACS Certified Graduates, you will have access to a multitude of benefits. In this brochure find a handful of them awaiting you with additional benefits outlined in your member handbook [www.acs.org/memberhandbook](http://www.acs.org/memberhandbook)

## Developing Your Network

ACS Local Sections offer you opportunities on a local level to connect, learn, lead and prepare for your future in chemistry. Technical Divisions provide the ability to explore areas of chemistry specialization, while staying up-to-date and collaborating with peers. ACS Regional Meetings are one-of-a-kind gatherings of chemistry students and professionals from around the world. ACS Members receive exclusive discounts and access to content.

ACS National Meeting attendees have the opportunity to share research findings, explore solutions, and network with chemists, chemical engineers, allied professionals, students, and educators from around the world. Twice annually, ACS hosts a national meeting with five days of symposia, tutorials, and poster sessions that cover every area of chemistry, chemical engineering, and related sciences.

## Building Your Career

ACS provides valuable resources and member-only access to help find a job and navigate your career in chemistry. Highlights include: Discounts towards ACS National Meeting & Expos; Personalized, one-on-one career consulting; C&ENjobs — a robust source of chemistry jobs; ACS Salary Calculator™ — insights about salaries in chemistry; Free or discounted career workshops and courses.

## *inChemistry* and *The Chemist*

These publications are geared toward undergraduate, graduate and postdoctoral chemists. *inChemistry* is the information hub for undergraduate student members that covers a range of topics unique to students in the chemical sciences: graduate school, navigating the job market; and *The Graduate & Postdoctoral Chemist* focuses on career advice, science news, awards, fellowships, and general topics related to grad student and postdoc life.

*The Chemist* [www.acs.org/careernavTC](http://www.acs.org/careernavTC)

## C&EN

ACS Members stay up to date with *Chemical & Engineering News* (C&EN), your weekly magazine filled with the latest and most relevant information about chemistry and chemical engineering. A top member benefit, C&EN is available in print and digitally, and where members enjoy unlimited access to C&EN Online and a subscription to the weekly e-newsletter.

## ACS Journals

More than 60 peer-reviewed journals serve the needs of scientists who are looking for the highest quality research in the chemical and related sciences.

[pubs.acs.org](http://pubs.acs.org)

## SciFinder®

Use SciFinder® from Chemical Abstracts Service® (CAS), the world's most complete source for information on chemistry and the related sciences. ACS Members enjoy 25 complimentary SciFinder® activities for personal use.
